To: Licensing
Subject: Leon Thompson 26 Eveline Road Mitcham Surrey CR4 3LE

I am in receipt of the above application for a licence to be granted and would wish to make the following representations against the application of this licence.

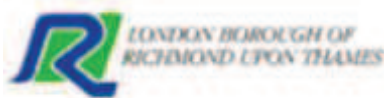

It is my understanding that that applicant wishes to provide alcohol from a garden shed in a quiet residential road between the hours of 12.00am and 5.00 am.

1. This activity would constitute a material change of use and would require planning permission that would not be granted for this type of activity in this location.
2. Deliveries to and from the premises, at this time of night will without any doubt cause a disturbance to neighbouring properties.
3. Despite what has been stated in the application the supply of alcohol will be targeted to and attract orders from people who will have been already either at pubs or clubs and will therefore fall foul of the Councils Public Health objectives which are to encourage sensible drinking and to curb binge drinking.
4. The holding of large quantities of alcohol in a garden outbuilding will make this an attractive target for crime.
5. There will be a temptation for the activity to migrate to sales from the premises which would attract antisocial behaviour into a quiet residential area.
6. There will be significant Health and Safety issues to the employees working late at night who are carrying both alcohol and cash and delivering to unknown premises.

I hope that this information is of use to you

Kind regards
