

## **Committee: Health and Wellbeing**

**Date: 30 September 2014**

Agenda item:

Wards: All

## **Subject: Domestic Violence Needs Assessment and Proposed Way Forward**

Lead officer: Yvette Stanley

Lead member: Cllr Maxi Martin; Cllr Edith Macaulay

Contact officer: Yvette Stanley & Zoe Gallen

---

### **Recommendations:**

- A. To agree the recommendations in the needs assessment
  - B. To agree the way forward with further work to be done in the light of potential changes to Safer Merton
- 

## **1 PURPOSE OF REPORT AND EXECUTIVE SUMMARY**

- 1.1. To present the findings of the domestic violence strategic needs assessment and agree Merton's response to the specific recommendations arising from the needs assessment.

## **2 DETAILS**

- 2.1. The Council has a number of statutory duties relating to tackling and effectively responding to domestic abuse and violence against women and girls, duties which are delivered across a number of departments and in partnership with a range of partners.
- 2.2. At a partnership level the overarching strategy has been led by the Safer Merton Partnership who have the lead on prevention, prosecution, overseeing and performance managing the MARAC and commissioning any Domestic Homicide Reviews agreed by the partnership including reporting to the Home Office on such matters. The MSCB has statutory oversight of a range of related issues including child sexual exploitation, girls and gangs and the safeguarding aspects of FGM. The Health and Well Being Board also have an interest due to their leadership of our overall Health and Wellbeing Strategy.
- 2.3. In terms of service responses, CSF department provides a broad range of services from safeguarding and child protection to work with schools around young people's wellbeing which prevent or respond to domestic violence and violence against women and girls. Community and Housing commission our local refuges and have a role in relation to vulnerable adults who experience abuse including domestic violence. Safer Merton have historically led the strategic needs analysis process, commissioned the IDVA Service, administered the MARAC, overseen any DHR process and supported the

overall strategic response including governance of the strategy overall and supporting work groups such as the practitioners' forum.

- 2.4. The Director of E&R is currently developing proposals to locate specific areas of Safer Merton's work into other services/departments as part of the TOM process and the impact of these changes will need to be built into our future arrangements.
- 2.5. Given the need to have an up to date strategy and response to DV encompassing the various partnerships and roles of specific service departments the Director of E&R and Director of CSF agreed that an up to date needs assessments should be commissioned and officers from both service departments and the Public Health Team specified and commissioned a new needs assessment. The assessment was undertaken by Cordis Bright during the spring and summer 2014 and they have now presented their findings to a workshop involving key partners. The next section of the report summarises their key findings and recommendations.

### **3 KEY FINDINGS AND RECOMMENDATIONS**

- 3.1 Domestic violence has been highlighted by the Coalition Government and by the Mayor of London as an area that increasingly demands focus and attention from a multi- agency partnership approach. It is also a priority issue for the council and our Health and Wellbeing Board, Safeguarding Children's Board and the Safer Merton Partnership (the Crime and Disorder Partnership).
- 3.2 Domestic abuse is in particular a key feature of the work of the CSF departments as DVI is one of the "toxic trio" featuring in the majority (60%+) of child protection cases and we have a strong track record of working with partners tackling domestic violence within families. However, in relationships where children are not present there are limited identified resources to support the victims of abuse and the review has established that the partnership's response to this small but important group is limited and less coherent than the current response to families.
- 3.3 The review also noted that Merton's population has been changing rapidly over time. 35% of our adult population are BME but 55% of our child population are BME. The fastest growing populations are the overall Asian population, which grew by 6% between 2000 and 2011, specifically those with Pakistani ethnicity which increased by 1.3% and Other Asian ethnicity which increased by 4.4%. The overall Black population grew by 3% over the same time period, with the Black African population growing by 1.8%. Any future service commissioning needs to respond to these changing profiles.
- 3.4 The review also looked at services available to victims of domestic abuse that are not commissioned directly by the council and are either funded by external agencies (HO and LGA) or are direct provision from the voluntary sector.

3.5 The full needs assessment covers some 170 pages but is available on request. The Executive Summary is attached as appendix 1 and this report focuses on the 6 specific recommendations arising from the review.

**3.6 Recommendation 1**

**Agree a common definition for domestic violence and abuse, which should be applied across all future strategic and operational activity in the borough.**

Response:

That Merton in future has a Violence Against Women and Girl's Strategy incorporating domestic violence but encompassing:

- Domestic Violence (including men, same sex relationships, and people with and without children)
- Rape and Sexual Violence
- Female Genital Mutilation
- Forced Marriage
- Crimes in the name of "honour"
- Sexual Harassment
- Stalking
- Trafficking
- Prostitution and Sexual Exploitation of adults
- Children and Young People at risk of Sexual exploitation

We will need to identify lead agencies and officers for each strand.

**3.7 Recommendation 2**

**Put in place strong leadership and governance arrangements surrounding the Domestic Violence, Abuse and Violence Against Women and Girls agenda.**

With this in mind the Director CSF has agreed to be the CMT lead and to chair a new governance board. As part of the consultation on future arrangements for Safer Merton functions CMT will need to consider how the strategic and partnership support for this area is supported and to have clarity re each department's contributions.

Draft structures and terms of reference for the board are attached as appendices 2 and 3.

**3.8 Recommendations 3 and 5**

**The governance arrangements will oversee the development of an outcome-focussed strategy to be developed and delivered by a partnership group.**

**The governance arrangements will clarify and implement strong performance management arrangements.**

Response:

It is recommended that the new board oversees the development of a performance framework as part of its new role.

**3.9 Recommendation 4**

**To develop an outcome focussed evidence-led commissioning plan to ensure the strategy is delivered.**

Response

The board will be supported by a working group of commissioners from PH, CSF, C&H and partners whose task will be to ensure we have a joined up commissioning response to this agenda.

**3.10 Recommendation 6**

**To clarify, articulate and publicise arrangements for identifying victims/survivors, assessing risk and referring.**

Response

The board will be supported by a practitioners' forum which will respond to this recommendation and make recommendations to strengthen our risk assessment and response

**4 CONSULTATION UNDERTAKEN OR PROPOSED**

- 4.1 The work started in the borough in March 2014 and was finished early in September. The work started with stakeholder interviews, reviewing strategies in the borough and nationally. In June a stakeholders' workshop to review the recommendations proposed by Cordis Bright was held.

This paper to CMT is also part of the consultation for the changes. The findings and officers recommended responses will need to go through our partnership infrastructure.

**5 FINANCIAL, RESOURCE AND PROPERTY IMPLICATIONS**

- 5.1. The Council and partners will find the most cost effective ways of delivering these functions with the aim to deliver the responses to the recommendations within existing resources. A separate paper on the future arrangements for Safer Merton will address the resource implications under recommendation 2.

**6 LEGAL AND STATUTORY IMPLICATIONS**

- 6.1. The Council and partners have a range of statutory functions relating to the services detailed in this report. The new arrangements are intended to strengthen our oversight of the delivery of these duties.

**7 HUMAN RIGHTS, EQUALITIES AND COMMUNITY COHESION IMPLICATIONS**

**8 APPENDICES – THE FOLLOWING DOCUMENTS ARE TO BE PUBLISHED WITH THIS REPORT AND FORM PART OF THE REPORT**

**Appendix 1:** Cordis Bright Executive Summary and recommendations

**Appendix 2:** Draft proposed structure chart under the new governance

**Appendix 3:** Draft terms of reference for the new VAWG strategic board
