# COVID-19 and NHS-related indicators

24<sup>th</sup> November 2020

## Local contact tracing

- Launched on 18<sup>th</sup> Nov, in first 3 days – 24 successfully contacted.
- All contacted signposted to local support services

## Testing

- Symptomatic:
  - Pillar 1 testing – responsibility of NHS
  - Pillar 2 testing – responsibility of DHSC, local testing sites in collaboration with LA
- Asymptomatic:
  - PCR (polymerise chain reaction) testing for care homes, being rolled out to homecare
  - LFT (lateral flow test) – responsibility devolved to health care providers, universities, future plans for care homes, schools, and LAs
    - Positive results require confirmation with PCR
    - Currently nose/throat but saliva version expected soon

Page 9

## COVID-19 vaccination

- Led by NHS, supported by LA and partners
- Mass testing sites (approx. 1/LA), PCN (Primary Care Network) testing sites for primary care delivery (PCNs can share sites, but expected to be not more than 2-3 per shared site and some have their own site)
- Priority groups – identified by JCVI (national Joint Committee on vaccination and immunisation) based on risk; feasibility also needs to be considered for delivery, ie Pfizer vaccine requires storage -80C. Front line health and care workers are high priority; and then age is used as other main determinant.

# Key Differences of England's new Tier System

## Tier 1: Medium

- Rule of six indoors and outdoors; pubs and restaurants shut at 11pm; people encouraged to work at home; spectators allowed at sports events; personal care including hairdressers allowed.

## Tier 2: High

- No household mixing indoors; rule of six outdoors; pubs and restaurants shut at 11pm; alcohol only served as part of substantial meal; spectators allowed at sports events; personal care including hairdressers allowed.

## Tier 3: Very High

- No household mixing indoors or outdoors in hospitality venues or private gardens; rule of six applies outdoors; pubs and restaurants closed except for delivery and takeaway; indoor venues closed; guidance against travelling in and out of the area; personal care including hairdressers allowed.

# Health and Wellbeing Board Community Subgroup and Engagement on COVID-19

Page 11

# HWBB Community Subgroup

- Giving **oversight of communication and engagement** with residents on local outbreak control and protecting vulnerable communities.
- Focused on the impact of COVID on vulnerable groups / those disproportionately impacted – **deep dives** on older people and the mental health and emotional wellbeing of adults and CYP
- Members of the HWBB – including voluntary and community sector - plus nominees, giving reach across their networks, **amplifying key comms** messages on COVID / myth busting
- Planned future focus on **BAME communities'** engagement and work with **people with learning disabilities**.
- Gaining insight through dialogue into lived experience, helping communities to have an active voice in **recovery planning**
- Time limited task group – review April 2021

# Engagement – examples to date and future plans

- **Community Engagement Workshops** – over 50 participants explored the impact of COVID and identified assets to help build awareness of key messages
- **Community Champions Network** – weekly drop-in sessions for volunteer Champions to receive and then share trusted comms to family, friends and networks – over 100 Champions to date and growing building reach and effectiveness.
- **Listening to lived experience** of the challenges residents face and identifying opportunities to **build resilience and trust**: partnership work with NHS, Wimbledon Guild, Age UK, Carers' Support Merton, Merton Mencap and BAME Voice.
- **Young Inspectors leading engagement with children and young people** working as peers to better understand their experiences of COVID and build resilience, including Merton COVID Young Champions network and engagement through workshops and creative arts.
- **£200k Merton Giving** Grants programme for VCS, with 3 themes; tackling the disproportionate impact, supporting vulnerable people and connecting our communities.
- Using insight to refine **pro-active and re-active comms**, including videos of trusted local leaders and residents to support key messages e.g. vaccinations
- Working with the NHS on a **joint approach to tackling health inequalities**, which are being both exposed and exacerbated by COVID-19.
