Liberal Democrat Amendment to the Strategic Theme Report

Council 20 November 2024

To amend the Recommendations to the Strategic Theme Report by adding as Recommendation B:

Council believes that a truly resident-centric approach would put residents' experiences at the heart of its work. When residents seek assistance from Councillors, they should be able to access that help directly and effectively.

Therefore, Council clarifies that the Member Enquiry Protocol should be understood in this context and not interpreted as limiting Councillors to only serving residents or attending events within their Ward.

Cllr Anthony Fairclough

Cllr Samantha MacArthur
