		Service Implication  Staffing Implications Business Plan implications Impact on other departments Equalities Implications  TOM Implications	This saving will be achieved through i) centralising the residual data/performance monitoring capacity currently dispersed across operational divisions and ii) prioritising work to deliver statutory requirements only. Reduced capacity will impact on the deliverability of increased inspection burdens which is why the risk score for this saving has been revised.  1 FTE staffing of overall pool of 8 posts.  None  We will focus on statutory returns which may impact on requests from other departments.  We will use the Council's agreed HR policies and procedures for restructuring. An EA will be developed for the service change staffing proposals.  The TOM refresh includes an increased focus on delivering the restructure as well as flexible working and the introduction of the SCIS. This saving is in line with TOM direction of travel to focus on statutory responsibilities and organisation layer strategy. Delivery of a functioning MOSAIC product is key to delivering this saving.

Deliver for September 2018 so estimated full year effect of £390k split over two years. With changes to the structure of the department, the implementation of SCIS and a focus on minimal education and social care core functions we will redesign our workforce across the smaller department. We have reviewed our workforce following our strategy to reduce agency cost and changes to team management positions. Due to less experienced staff and increased inspection burdens, we revised the risk score for this saving.  Expect a reduction of 13 posts from a total of 65FTE. We will prioritise our core statutory education and social care functions.  A smaller workforce will reduce our ability to work on cross cutting issues and new developments. We will use the Council's agreed HR policies and procedures for restructuring. An EA will be developed for the service change staffing proposals.  The TOM refresh includes an increased focus on delivering the restructure as well as flexible working and the introduction of the SCIS. The CSF workforce needs to be more highly skilled and flexible. 		Service Implication	Given the previous reduction in staffing, this saving is no longer achievable without significant detriment to the safety and quality of service								
		Staffing Implications	Possible impact on our statutory duties under the Care Act 2014. We would attempt to mitigate this by investigating alternative models for quality and performance monitoring and of assessment and care management.								
		Business Plan implications	The service would struggle to meet its plans								
		Impact on other departments	As staff and service delivery are affected there is an equalities implication. A detailed EA would be undertaken at the time of any restructure. 		Service Implication	This makes service delivery very challenging, but will seek to preserve a greater number of front-line staff engaged with service delivery. The main impact will be upon supervisory and other management roles.								
		Staffing Implications	Deletion of 1.0 post (2017/18) and Deletion of 2.0 posts and Re- evaluation of 1.0 post (2018/19). Redundancy costs to the council and increased workloads for remaining staff

The additional reductions in staffing (in addition to those identified in 2016/17) would be limited to management and supervisor posts. Whilst this will be increasingly challenging for the remaining management and staff, it is anticipated that the business will continue to be delivered with some adjustments made as necessary.

### 06 E&R Parking Services (Ref No. ALT1)

What are the proposals being assessed?	Further development of an emissions based charging Policy for resident/business permits
Which Department/ Division has the responsibility for this?	Enfv & Regeneration / Public Protection / Parking and CCTV Services

Stage 1: Overview					
-Name and job title of lead officer	Paul Walshe Head of Parking and CCTV Services				
What are the aims, objectives and desired outcomes of your proposal? (Also explain proposals ag. reduction/removal of service, deletion of posts, changing criteria etc)	To encourage cleaner air quality and contribute to the public health agenda				
2. How does this contribute to the council's corporate priorities?	To improve the health of the Community.				
3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.	Residents, Businesses and Trade who purchase a parking permit				
4. Is the responsibility shared with another department, authority or organisation? If so, who are the partners and who has overall responsibility?	The responsibility is not shared with any other department. The section will work closely with the Shared Regulatory Service Pollution Team when implementing the proposal.				

### Stage 2: Collecting evidence/ data

### 5. What evidence have you considered as part of this assessment?

Provide details of the information you have reviewed to determine the impact your proposal would have on the protected characteristics (equality groups).

It is not believed that levels of vehicle emissions have a correlation with motorists with protected characteristics. If, during the implementing of the policy, it becomes evident that this is not the case, this assessment will be reviewed.

### Stage 3: Assessing impact and analysis

6. From the evidence you have considered, what areas of concern have you identified regarding the potential negative and positive impact on one or more protected characteristics (equality groups)?

# Equality Analysis – ENR10 – Leisure & Culture Development Team

Guidance for carrying out Equality Impact Assessments is available on the intranet.

What are the proposals being asses	ssed?	To make Leisure Centre Contract Savings at the time of the opening of the new Morden Leisure Centre (MLC) and the demise of the existing Morden Park Pools (MPP) by way of a Change to the existing Leisure Management Contract with Greenwich Leisure Limited (GLL)		
Which Department/Division has the	responsibility for this?	Environment & Regeneration – Public Space Division		
Stage 1: Overview				
Name and job title of lead officer		Christine Parsloe, Leisure & Culture Development Manager		
Myhat are the aims, objectives	Outcome: To achieve leisure ma	nagement contract savings		
ant desired outcomes of your proposal? (Also explain proposals e.g. eduction/removal of service,	Aims: To open a new MLC, close & demolition the existing MPP Proposals:			
deletion of posts, changing criteria etc)	The new Morden Leisure Centre (MLC) is due to be completed in the Autumn of 2018 and this will result in a Deed of Variation with the contractors Greenwich Leisure Limited (GLL) to discontinue operation of the existing Morden Park Pools (MPP) and move to operate the new MLC. In doing this we expect to be making savings on the contract sum.			
2. How does this contribute to the council's corporate priorities?	Delivers savings and transforma	tion of services		
3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.	Customers, community organisations, schools, other departments, stakeholders etc. as we open a new leisure centre and close the existing MPP. The main terms of the contract pricing structures, membership, etc. will not change, rather a new suite of leisure opportunities will be provided generating a saving on the leisure management contract.			
4. Is the responsibility shared with another department, authority or organisation? If so: Who are the partners and who has overall responsibility?	No			

6. What evidence have you considered as part of this assessment? List the data, results of consultation, research and other sources of evidence reviewed to determine impact on the protected characteristics (equality groups). Where there are gaps in data you may have to address this by including it in the action plan.

### Type of evidence

The range and type of facilities to be included in the new MLC has already been fully considered and consulted upon with the community through formal and informal consultations, planning applications and will continue to occur as the plans and designs implemented. This will include local interest groups, disability organisations, schools, those from ethnic minority communities and faith groups.

11. How will you share lessons learnt from this assessment with stakeholders and other council departments?

We will share any learning from this with others through one to one support, advice and guidance as appropriate and time allows.

# **Stage 6: Monitoring**

The full impact of the decision may only be known after the proposals have been implemented; therefore it is important the effective monitoring is in place to assess the impact.

## How will you monitor the impact of the proposal once it has been implemented?

Monitoring will be done through the leisure management contract monitoring processes within existing business practices

### How often will you do this?

Quarterly through formal meetings, otherwise through day to day working and business operations.

What are the proposals being assessed?	Proposed new budget savings for Infrastructure & Transactions division.  Savings reference numbers 2018-19CS01 and 2018-19CS02 are new savings in 2019/20 financial year, which have all been assessed as not having any potential equalities impact implications.
Which Department/ Division has the responsibility for this?	Corporate Services – Infrastructure & Transactions Division

Stage 1: Overview	
-Name and job title of lead officer	Mark Humphries, Assistant Director Infrastructure & Transactions
What are the aims, objectives and desired outcomes of your proposal? (Also explain proposals ag. reduction/removal of service, deletion of posts, changing criteria etc)	2018-19CS01 – One off revenue saving associated with the financing of the current corporate Multi-Functional Device (MFD) contract.  2018-19CS02 – Reduction in the level of non-essential and general repairs and maintenance undertaken on the Council's corporate buildings.
2. How does this contribute to the council's corporate priorities?	Reviewing the current divisional service delivery model and the associated corporate contracts to ensure that they provide an appropriate level of service and ensure that we continue to provide efficient and cost effective solutions in order to meet the requirements of the Council's wider MTFS.
3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.	CS01 – No affect as this is a budget saving associated with the financing of the corporate Multi-Functional Device (MFD) contract and will therefore have no operational implications.  CS02 – No direct impact but likely that staff and visitors will notice a gradual reduction in the condition of office accommodation and the public facing areas due to a reduction in the frequency of works like internal and external decorating.
4. Is the responsibility shared with another department, authority or organisation? If so, who are the partners and who has overall responsibility?	No

# 5. What evidence have you considered as part of this assessment?

Provide details of the information you have reviewed to determine the impact your proposal would have on the protected characteristics (equality groups).

I&T13 – Information available from the last round of building condition surveys indicates that that the general level of backlog maintenance on the Council's corporate buildings is reducing as a result of some targeted investment, and therefore any subsequent reduction in the level of cyclical and routine maintenance, will increase the need to undertake larger elemental repair/replacement works as the condition of the buildings gradually deteriorate over time.

### 8. Which of the following statements best describe the outcome of the EA (Tick one box only)

Please refer to the guidance for carrying out Equality Impact Assessments is available on the intranet for further information about these outcomes and what they mean for your proposal

Outcome 1 – The EA has not identified any potential for discrimination or negative impact and all opportunities to promote equality are being addressed. No changes are required.

Outcome 2 – The EA has identified adjustments to remove negative impact or to better promote equality. Actions you propose to take to do this should be included in the Action Plan.

Outcome 3 – The EA has identified some potential for negative impact or some missed opportunities to promote equality and it may not be possible to mitigate this fully. If you propose to continue with proposals you must include the justification for this in Section 10 below, and include actions you propose to take to remove negative impact or to better promote equality in the Action Plan. 	Proposed budget savings for 2019 – 2022. These relate to income generation, reduction in divisional running costs and resource reduction. (Savings Ref. CS08, CS09, and CS10)
Which Department/ Division has the responsibility for this?	Corporate Services/Customer Services

Stage 1: Overview	
Name and job title of lead officer	Sean Cunniffe, Head of Customer Contact
1. What are the aims, objectives and desired outcomes of your proposal? (Also explain proposals as reduction/removal of service, etc.)	<ul> <li>Increase in income from Enforcement Service to be achieved through the increase in number of warrants being generated from ANPR contraventions.</li> <li>Rationalisation of supply budgets within Customer Contact</li> <li>Reduction in staffing within Revenues and Benefits (approximately 2 FTE).</li> </ul>
2. How does this contribute to the council's corporate priorities?	Assists with balancing the budget.
3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.	All of the above will have a limited impact on external customers.  The proposals assist the Council with making a balanced budget.
4. Is the responsibility shared with another department, authority or organisation? If so, who are the partners and who has overall responsibility?	None

### 5. What evidence have you considered as part of this assessment?

Provide details of the information you have reviewed to determine the impact your proposal would have on the protected characteristics (equality groups).

- Increase in income from Enforcement Service following the implementation of ANPR there has been an increase in the number of warrants issued following road contraventions. No impact on external customers or protected characteristics.
- Concessionary Travel audit recommendation following review of Blue Badge process and benchmark with neighboring Boroughs.
  Guidelines state a charge can be levied, up to a maximum of £10.00, for each successful application. Already stated on-line but charge not enforced. Limited impact as charge is minimal and covers each Blue Badge with a lifespan of 5 years. No impact on protected characteristics.
- Rationalisation of supply budgets within Customer Contact achieved through greater efficiency. No impact on external customers or protected characteristics.
- Reduction in staffing within Revenues & Benefits should be achieved through natural wastage with little impact on external customers as a result of implementation of Universal Credit.

What are the proposals being assessed?	2018-19 CS 12 – 50k reduction in legal capacity for enforcement work and litigation
Which Department/ Division has the responsibility for this?	Corporate governance

Stage 1: Overview	
Name and job title of lead officer	Paul Evans
1. What are the aims, objectives and desired outcomes of your proposal? (Also explain proposals g.g. reduction/removal of service, deletion of posts, changing criteria etc)	To make a saving of 50k on legal spend by reducing the capacity available to carry out civil and criminal litigation. This will lead to a reduction in the number of prosecutions carried out by the council to enforce fly tipping, blue badge fraud and other discretionary enforcement actions. The reduction will be about 50% of the current resource level.
How does this contribute to the council's corporate priorities?	Combat fraud and enforcement activity to provide clean streets.
3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.	Less support fro the Councils environment team, reduced effect of enforcement threat to keep streets clean.  The impact will be a reduction in about 2/3rds of a full time post.
4. Is the responsibility shared with another department, authority or organisation? If so, who are the partners and who has overall responsibility?	The council regulatory services team will be affected with a reduced availability of legal support.

5. What evidence have you considered as part of this assessment?

1. What are the aims, objectives and desired outcomes of your proposal? (Also explain proposals g. reduction/removal of service, deletion of posts, changing criteria etc)	Further reduction in Audit and investigatory resource which will result in reduction of audit days available to the Council and ability to investigate fraud.
How does this contribute to the council's corporate priorities?	Risk assurance systems and combat fraud.
3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.	Council departments will have a reduced resource to provide required audit checks on service systems. The s151 officer will have less resource available to provide the required assurance on the effectiveness of council systems.
4. Is the responsibility shared with another department, authority or organisation? If so, who are the partners and who has overall responsibility?	The service is provided by staff employed by Richmond and Wandsworth councils.

5. What evidence have you considered as part of this assessment?

Provide details of the information you have reviewed to determine the impact your proposal would have on the protected characteristics (equality groups).

There is no disproportionate impact on service users. The effect of the saving will be an increased risk to council assurance on its internal systems.

3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.	.The impact would be two-fold as this proposal would reduce capacity to work with both external and internal customers. Firstly, The PSP team works with a number of external facing groups in particular those identified in the Equalities Act 2010 such as ethnic minorities, faith groups, LGBT and disabled people. It works closely with the voluntary sector and is the main point of contact for developing the relationship with the voluntary sector through the Merton Compact. It directly commissions the Strategic Partner programme that includes community advice through Citizens Advice and support to the voluntary sector as a whole through the CVS.
	Secondly, It works with internal customers to help them meet our statutory Equalities duties including

supporting Equality Impact Assessments and supports corporate working in a number of strategic priority areas including the voluntary sector and volunteering strategy, the strategic use of data about our communities to inform decision making and service development, our strategic approach to equalities and community cohesion and working with the voluntary sector to support the sector and prepare it for the ongoing reductions in public sector services.

What are the proposals being assessed?	Proposed replacement budget savings for Infrastructure & Transactions division. Savings reference CSREP 2018-19 (1) and CSREP 2018-19 (2) replacement savings in 2018/19, which have all been assessed as not having any potential equalities impact implications.
Which Department/ Division has the responsibility for this?	Corporate Services – Infrastructure & Transactions Division

Stage 1: Overview	
and job title of lead officer	Mark Humphries, Assistant Director Infrastructure & Transactions
P. What are the aims, objectives and desired outcomes of your proposal? (Also explain proposals e.g. reduction/removal of service, deletion of posts, changing criteria etc)	CSREP 2018-19 (1) – Is an increase in the level of income derived from the reprocurement of the corporate catering contract.  CSREP 2018-19 (2) – Reduction in the operating cost of the corporate cleaning contract, which will be delivered through a review of the current specification and a reduction in the level and frequency of cleaning within the corporate buildings.
2. How does this contribute to the council's corporate priorities?	Reviewing the current divisional service delivery model and the associated corporate contracts to ensure that they provide an appropriate level of service and ensure that we continue to provide efficient and cost effective solutions in order to meet the requirements of the Council's wider MTFS.
3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.	No affect as this an increase in the level of income derived from the reprocurement of the corporate catering contract.  No direct affect but likely that staff and visitors within the corporate buildings will notice the reduction in the level and frequency of cleaning as the specification is reduced.
4. Is the responsibility shared with another department, authority or organisation? If so, who are the partners and who has overall responsibility?	No

## 5. What evidence have you considered as part of this assessment?

Provide details of the information you have reviewed to determine the impact your proposal would have on the protected characteristics (equality groups).

I&T12 – No specific evidence available, but historically the Council's corporate cleaning specification has always provided a very comprehensive and relatively high standard in comparison with other comparable organisations, and therefore any proposed reduction would bring the service in line with general standards.

## 8. Which of the following statements best describe the outcome of the EA (Tick one box only)

Please refer to the guidance for carrying out Equality Impact Assessments is available on the intranet for further information about these outcomes and what they mean for your proposal

Outcome 1 – The EA has not identified any potential for discrimination or negative impact and all opportunities to promote equality are being addressed. No changes are required.

Outcome 2 – The EA has identified adjustments to remove negative impact or to better promote equality. Actions you propose to take to do this should be included in the Action Plan.

Outcome 3 – The EA has identified some potential for negative impact or some missed opportunities to promote equality and it may not be possible to mitigate this fully. If you propose to continue with proposals you must include the justification for this in Section 10 below, and include actions you propose to take to remove negative impact or to better promote equality in the Action Plan. You must ensure that your proposed action is in line with the PSED to have 'due regard' and you are advised to seek Legal Advice.

Outcome 4 – The EA shows actual or potential unlawful discrimination. Stop and rethink your proposals.

What are the proposals being assessed?	Proposed budget savings for HR
Which Department/ Division has the responsibility for this?	Corporate Services – Human Resources (CSREP12)

Stage 1: Overview	
Name and job title of lead officer	Kim Brown HR Lead
1. What are the aims, objectives and desired outcomes of your proposal? (Also explain proposals g.g. reduction/removal of service, deletion of posts, changing criteria (etc)	The proposals set out in (CSREP12) are to meet the savings required by the Council for 2018/19. The proposals will result in different ways of delivering the service. HR Services will have to be restructured to realise the proposed savings and will result in the deletion of 3.5 post –(2.5 vacant)
2. How does this contribute to the council's corporate priorities?	The proposal reflects the savings that need to be made in HR to balance the Council.
3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.	The HR Service provides advice and services to internal/external customers, partners and staff. The proposals will support the Council in meeting the required savings to balance the budget.
4. Is the responsibility shared with another department, authority or organisation? If so, who are the partners and who has overall responsibility?	No.

## 5. What evidence have you considered as part of this assessment?

Provide details of the information you have reviewed to determine the impact your proposal would have on the protected characteristics (equality groups).

### Impact on staff within HR - HR data

The proposed savings will have impact on gender (women) as 80% of the HR workforce are female so any changes/deletions of posts will have an impact on this protected characteristic.

66% of the HR workforce are in the age band 45 – 64 – any changes would have an impact on this group.

Managers and staff would be required to use more online and self-service options.

Which Department/ Division has the responsibility for this?	Business Improvement Division, Corporate Services Department

Stage 1: Overview	
Name and job title of lead officer	Clive Cooke
What are the aims, objectives and desired outcomes of your proposal? (Also explain proposals e.g. reduction/removal of service, deletion of posts, changing criteria (etc)	Reduction in payments to third party providers for maintenance and support. This will most likely be achieved through decommissioning services and/or systems, though officers will also use procurement opportunities to review and reduce costs for maintenance and support wherever possible.
How does this contribute to the council's corporate priorities?	Corporate Capacity – the proposal aims to reduce as far as possible the costs associated with the external provision of maintenance and support arrangements for the council's line of business systems, ensuring the IT suite is as efficiently maintained as possible and that the council maximises opportunities within the market to secure best value for services provided.
3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners,	The proposal will be delivered in line with the council's IT and Procurement strategies to minimise impact on businesses within the council and customers. Using the TOM exercise, Business Improvement will identify opportunities to retire business systems that duplicate functionality that can be offered elsewhere, or to introduce more efficient systems with more cost effective support arrangements.
stakeholders, the workforce etc.	This will have an impact on services and staff using affected systems, who will need to adapt to new business systems and processes.
4. Is the responsibility shared with another department, authority or organisation? If so, who are the partners and who has overall responsibility?	The proposal will require the support of the organisation in defining clearly their IT system requirements and being prudent in the purchase and implementation of new systems. Departments and services will need to engage early with the Business Systems team when considering new IT systems to ensure that we work together to secure the best possible value and utilise all existing systems to their full extent in order to reduce the ongoing support and maintenance costs associated with the council's IT suite.

The exercise is shared with the boroughs of Richmond and Wandsworth and it is envisaged that system support will be provided by Merton. Merton proposes to levy a charge to these boroughs for this support and absorb the additional work into the existing establishment, exploiting efficiencies and economies of scale.share an IT system support function with other boroughs to exploit economies of scale and introduce a more efficient, cost effective way of supporting one of the council's major IT systems.  The relevant officers within the team will be deployed on system support across several boroughs. No reductions are proposed.  The work programme of the team will need to be tightly managed to ensure the additional demand is efficiently managed within the existing work arrangements and establishment.
2. How does this contribute to the council's corporate priorities?	Corporate Capacity – the proposal aims to share an IT system support function with other boroughs to exploit economies of scale and introduce a more efficient, cost effective way of supporting one of the council's major IT systems.
3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.	The E&R department for whom the system provides key functionality: a level of support will need to be established that is manageable within the capacity set out for the three boroughs. This will require that requirements and demands for support are carefully prioritised across the three boroughs within a collaborative approach.
	The Business Systems Team supporting M3: efficient measures for supporting the system and managing and controlling change carefully will need to be introduced, and effective clienting of the three boroughs put

	in place to enable the team to prioritise demand and respond within the reduced capacity. It is expected that economies of scale across the three boroughs will mean that priority demand will be met.
4. Is the responsibility shared with another department, authority or organisation? This will seek to ensure that the council charges appropriately, particularly for larger scale developments.
2. How does this contribute to the council's corporate priorities?	Corporate Capacity – the proposal aims to ensure that as much of the cost of the function as possible is met through fees and charges as is reasonably possible, whilst taking into account the appropriate level of charges that should be levied on residents and developers within the borough
3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.	Developers: the proposal will largely affect individuals and organisations developing properties within the borough. There will be a higher charge levied for functions such as naming a street, and naming or numbering a block, property etc. The street naming and numbering function is largely delivered within the context of new developments.
	Residents: where residents are requesting a change in the numbering or naming of their property, or where they are required by the duties the council holds to make such changes.  There is no impact on staff.
4. Is the responsibility shared with another department, authority or organisation? If so, who are the partners and who has overall responsibility?	The duty is discharged within Corporate Services, through the Business Improvement Division.

### 5. What evidence have you considered as part of this assessment?

Provide details of the information you have reviewed to determine the impact your proposal would have on the protected characteristics (equality groups).

1. What are the aims, objectives and desired outcomes of your proposal? (Also explain proposals g. reduction/removal of service, deletion of posts, changing criteria etc)	Review of non-staffing budgets across the department.  Further reduction in commissioning budgets due to combining of contracts realising some savings.  We will continue to prioritise commissioning according to need vulnerability and risk.  We have also reviewed our support budgets following service redesigns.
How does this contribute to the council's corporate priorities?	This contributes to corporate priories by managing our resources to provide value for money. We are particularly determined to help those facing obstacles and challenges. By prioritising commissioning according to need vulnerability and risk.
3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.	There should be little negative impact of realising this saving, it has been reviewed and well planned for. With a review of all commissioned services to ensure those with the highest needs continue to receive appropriate levels of support.

What are the proposals being assessed?	Proposed budget savings CSF 2017 03/04 & CSF2017-05/06
Which Department/ Division has the responsibility for this?	CSF/Children's Social Care

Stage 1: Overview	
Name and job title of lead officer	Paul Angeli (AD Children's Social Care/Youth Inclusion)
1. What are the aims, objectives and desired outcomes of your proposal? (Also explain proposals g.g. reduction/removal of service, deletion of posts, changing criteria	CSF2017-05. The LA will buy into a Social Impact Bond (SIB) with 5 other boroughs. The SIB is designed to support delivery of service to keep children and young people out of the care system. This is in line with our TOM and our Children & Young People Well-Being Model. This will deliver 45K savings in 2018/19 & 45K savings in 2020/21. This work, however, takes place within a rising population demographic and increased complex needs.
atc) 55 8	CSF2017-06. The South London Family Drug and Alcohol Court commissioning programme will enable more children to return home safely, thereby, reducing the costs of care placements. This is in line with our TOM and will deliver 45K savings in 2018/19 and 45K savings in 2020/21. This work, however, takes place within a rising population and increased complex needs.
2. How does this contribute to the council's corporate priorities?	This proposal supports Healthy Merton and supports our most vulnerable children and young people getting the best start in life. It reflects our MSCB priorities of Early Help, Vulnerable Adolescents, Think Family and the cross cutting priority of tackling neglect.
3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.	This will benefit our most vulnerable clients. There are no staffing implications. The proposals benefit the council in terms of a potential to deliver future savings.
4. Is the responsibility shared with another department, authority or organisation? If so, who are the partners and who has overall responsibility?	These are commissioned services and will require ongoing investment to meet the savings targets.

5. What evidence have you considered as part of this assessment?

Provide details of the information you have reviewed to determine the impact your proposal would have on the protected characteristics (equality groups).

We have rising population and an increase in complexity of need. List the type of evidence (data, results of consultation, research, etc) and analysis of what this evidence tells you regarding the impact on the protected characteristics (equality groups).

The impact of both increase in numbers and complexity requires the LA to consider a range of options to meet demand and need.

What are the proposals being assessed?	Proposed budget saving CSF2017-07
Which Department/ Division has the responsibility for this?	CSF/Education Division

Stage 1: Overview	
Name and job title of lead officer	Jane McSherry (AD Education)
1. What are the aims, objectives and desired outcomes of your proposal? (Also explain proposals e.g. reduction/removal of service, deletion of posts, changing criteria (etc)	Review of school traded services offer and raise charges or consider ceasing certain services. This will entail a review of all current SLA's as well as de-delegated services with schools to ensure i) full cost recovery ii) that LBM charges are aligned with other providers. We will also explore future opportunities to trade with schools. If school are unwilling or unable to pay for core and enhanced services this will result in approximately 1.5- 2 posts being deleted in the relevant education service area. It will also potentially impact negatively on service volumes and children's outcomes as there may be an increase in escalations of referrals to child protection services from schools. This will deliver a saving of 60K in 2020/21.
How does this contribute to the council's corporate priorities?	If additional funding is secured from schools then this proposal would enable work to continue under the 'Opportunity Merton' theme: our programme to improve education from nursey level to adult provision. CSF services support our most vulnerable children and young people getting the best start in life. We are particularly focused on those facing obstacles and challenges and how we 'narrow the gap' in outcomes between some children and their more advantaged peers.
3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.	Partners and (dependant on outcome) staff will be affected by this proposal. If schools agree to the raising of our charges and continue to buy back these services our children and young people will continue to benefit from the current offer.
4. Is the responsibility shared with another department, authority or organisation? If so, who are the partners and who has overall responsibility?	We require agreement from schools to deliver this savings (in the case of increases in charging). If this is not agreed the decision to cease certain services will require stakeholder engagement in agreeing priorities for delivery.

### 5. What evidence have you considered as part of this assessment?

Provide details of the information you have reviewed to determine the impact your proposal would have on the protected characteristics (equality groups).

We have comprehensive data and information in relation to costing models to review our current SLA's. we have comprehensive data in relations to schools and where need is more prevalent.

Please refer to the guidance for carrying out Equality Impact Assessments is available on the intranet for further information about these outcomes and what they mean for your proposal

- ✓ Outcome 1 The EA has not identified any potential for discrimination or negative impact and all opportunities to promote equality are being addressed. No changes are required.
- Outcome 2 The EA has identified adjustments to remove negative impact or to better promote equality. Actions you propose to take to do this should be included in the Action Plan.
  - Outcome 3 The EA has identified some potential for negative impact or some missed opportunities to promote equality and it may not be possible to mitigate this fully. If you propose to continue with proposals you must include the justification for this in Section 10 below, and include actions you propose to take to remove negative impact or to better promote equality in the Action Plan. You must ensure that your proposed action is in line with the PSED to have 'due regard' and you are advised to seek Legal Advice.

Guidance for carrying out Equality Impact Assessments is available on the intranet.

What are the proposals being assessed?		Reduction in Core Arts Grants to Polka Theatre  (Note: 'proposal' includes a policy, service, function, strategy, project, procedure and restructure) (Savings Ref. E3)	
Which Department/Division has the responsibility for this?		Environment & Regeneration – Public Space Division	
Stage 1: Overview			
Nante and job title of lead officer		Christine Parsloe, Leisure & Culture Development Manager	
1. What are the aims, objectives and desired outcomes of your proposal? (Also explain proposals e.g. reduction/removal of service, deletion of posts, changing criteria etc)		adget of £60k core arts grant to Polka Theatre by £30,000 in 20/21 in return for on 106 investment into the redevelopment of the Polka Theatre site.	
2. How does this contribute to the council's corporate priorities?	Achieves savings Insert information as to how you	r proposals support the corporate priorities.	

3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.

Polka Theatre is a key cultural partner with international credentials. It is our only Arts Council Core Funded client. They are also a local business that adds to the local economy in the creative sector and are carrying out major regeneration plans supporting improvements in Wimbledon Broadway.

Local people, schoolchildren, older people, and other service areas make use of Polka Theatre to address other social agendas and achieve their specific outcomes / outputs.

Other funding partners, such as the Arts Council, only significantly fund Polka Theatre because Merton Council also make an annual contribution. By removing 50% of their annual grant the council will still continue to support the theatre with a grant of £30k per annum.

Polka Theatre is aware of the proposed savings and the capital investment into their regeneration project. They are a key partner in the council's London Borough of Culture bid for 2019 and will provide one of the three spectaculars, during the time that they are homeless whilst the new development is constructed. For this reason our savings are scheduled to come into effect from 2020/2021 so that Polka can continue to operate as fully as possible in outreach programmes during their development.

This will best support Polka to return to better and improved services for local people in years to come whilst also accepting this saving from the councils grants to them

Pa

Who are your customers (staff, service users, stakeholders, partners etc)? Who will your proposals benefit? How will your proposals benefit the council?

4. In the responsibility shared with another department, authority or organisation? If so: Who are the partners and who has overall responsibility?

No. Other departments and services may also commission Polka and by working with Polka to make the savings we will ensure that others will not be hampered in their efforts to commission them the future.

State here whether there are any other service areas, divisions, directorates, partner agencies (such as contracted organisations), other statutory bodies (e.g. the police, other councils etc) or the community and voluntary sector involved in the delivery of this function.

### Stage2: Collecting evidence/data

6. What evidence have you considered as part of this assessment? List the data, results of consultation, research and other sources of evidence reviewed to determine impact on the protected characteristics (equality groups). Where there are gaps in data you may have to address this by including it in the action plan.

#### Type of evidence

#### Type of evidence

#### Reduce core grant to Polka Theatre

As a local theatre, Polka serve their local community whilst each year developing a wide-ranging programme to primarily engage children, schools and families. Polka also has an outreach arm that targets families and groups residing in low-income areas of the borough. The venue is not simply a performance space as the theatre doubles as a community resource where adults can bring their children to play for free. This element brings families together under the banner of community, which means the theatre's client group is ultimately diverse and largely representative of the borough. Local organisations can hire spaces at the theatre at discounted rates.

In addition to the full programme of theatrical and educational workshops that attract over 80,000 attendees each year, there are other specific projects that aim to further widen the client base of Polka.

The improvements to their built facilities will increase the ability to have increased range and diversity of products; increased capacity; create greater financial sustainability for the theatre; etc.

### Stage 3: Assessing impact and analysis

Socio-economic status	V		V	Some of the users will be from a lower socio-economic status.

8. How do you plan to mitigate the negative impact that has been identified above? Also describe how you will promote equality through the policy, strategy, procedure, function or service?

There are no explicit negative issues in making this saving since the saving is being made on the back of a capital investment by the council into the redeveloped Polka Theatre and a business model that seeks to gain greater financial sustainability.

There will be a period of disturbance to the theatre and the users of that resource, but this saving is not due to come into effect until after that time, so that the theatre can deliver outreach work during that time.

	APPENDIX 7
Outcome 2 – Adjustments to remove negative impact identified by the EIA or to better promote equality. List the actions you propose to take to address this in the Action Plan.	This involves taking steps to remove barriers or to better advance equality. It can mean introducing measures to mitigate the potential negative effect. Remember that it is lawful under the Equality Act to treat people differently in some circumstances, for example taking positive action or putting in place single-sex provision where there is a need for it. It is both lawful and a requirement of the general equality duty to consider if there is a need to treat disabled people differently, including more favorable treatment where necessary.
Outcome 3 – Continue with proposals despite having identified some potential for negative impact or missed opportunities to promote equality. In this case, the justification needs to be included in the EA and should be in line with the PSED to have 'due regard'. List the actions you propose to take to address this in the Action Plan. (You are advised to seek Legal Advice)	This means a recommendation to adopt your proposals, despite any negative effect or missed opportunities to advance equality, provided you have satisfied yourself that it does not unlawfully discriminate. In cases where you believe discrimination is not unlawful because it is objectively justified, it is particularly important that you record what the objective justification is for continuing with your proposals, and how you reached this decision. This is very important to show that you have paid 'due regard' to the Public Sector Equality Duty
Outcome 4 – Stop and rethink: when your EA shows actual or potential unlawful discrimination.	If a policy shows unlawful discrimination it <b>must</b> be removed or changed.
Note: If your EA is assessed as outcome 3, explain your justification with full reasoning to continue with your proposals?	Include information as to why you suggest going ahead with your proposals despite negative impact being identified.

## 10. Equality Analysis Improvement Action Plan template – Making adjustments for negative impact

This action plan should be completed after the assessment and analysis and outlines the action to be taken to mitigate the potential negative impact identified.

Have you incorporated these actions into your divisional service plan or team plan? Please give details of where they have been included.

These will be included in future service and savings plans as well as the teams TOM.

#### 11. How will you share lessons learnt from this assessment with stakeholders and other council departments?

We will happily share any learning from this as and when it occurs and required

#### Stage 6: Monitoring

The full impact of the decision may only be known after the proposals have been implemented; therefore it is important the effective monitoring is in place to assess the impact.

#### How will you monitor the impact of the proposal once it has been implemented?

We monitor the number of participants using Polka Theatre as one of our core indicators within our service plan and on the Council's dashboard. We will continue to do this.

#### How often will you do this?

We will continue to monitor monthly during development and beyond.

## Stage: 7 Reporting outcomes (Completed assessments must be attached to committee reports and a summary of the key findings included in the relevant section with in them)

#### **Summary of the assessment**

- > What are the key impacts both negative and positive?
- > What course of action are you advising as a result of this assessment?
- > Apre there any particular groups affected more than others? Do you suggest to proceeding with your proposals although a negative impact has been identified?

#### Summary of the key findings:

- The proposal is to reduce the core arts grant to Polka Theatre in 2020/21
- Officers will work with Polka Theatre to invest £150k of capital / section 106 into the redevelopment of the theatre site
- The outcome and impact of this saving will be monitored through monthly monitoring of participation at the theatre.

What are the proposals being assessed?	Income from Merantun Developments for service provided by LBM (Finance, procurement, human resources, accommodation). (Savings Ref. E4)
Which Department/ Division has the responsibility for this?	Environment and Regeneration/Sustainable Communities

Stage 1: Overview	
Name and job title of lead officer	Chris Lee, Director of Environment and Regeneration
1. What are the aims, objectives and desired outcomes of your proposal? (Also explain proposals g.g. reduction/removal of service, deletion of posts, changing criteria etc)	Merantun Developments, through a series of service level agreements will receive services from the council's finance, procurement, human resources and facilities management services through a recharge to Merantun Developments for these services. The cost of staff seconded from the council to Merantun Developments will be recharged and the income will be received by the Environment and Regeneration department.
How does this contribute to the council's corporate priorities?	The council's corporate objectives of utilising its assets more effectively will result in income from its land assets being received from Merantun Developments through income for the provision of services to the company.
3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.	The proposals will result in long term revenue income to the council from the recharges from its wholly owned property development company, Merantun Developments.
4. Is the responsibility shared with another department, authority or organisation? If so, who are the partners and who has overall responsibility?	Merantun Development Limited will receive services from the corporate services department of the council through a series of service level agreements for services as outline above.

#### 5. What evidence have you considered as part of this assessment?

Provide details of the information you have reviewed to determine the impact your proposal would have on the protected characteristics (equality groups).

The income received will be delivered through existing staff resources and therefore there will be no change to current arrangements.

What are the proposals being assessed?	Proposed budget saving CH71 Transport: moving commissioned taxis to direct payments.
Which Department/ Division has the responsibility for this?	Community and Housing, Adult Social Care

Stage 1: Overview	
Name and job title of lead officer	John Morgan, Assistant Director of Adult Social Care
1. What are the aims, objectives and desired outcomes of your proposal? (Also explain proposals e.g. reduction/removal of service, deletion of posts, changing criteria etc)	To provide service users with the same transport levels, but with an improved choice of taxi provider, which will mean service users can purchase taxi journeys more cheaply.  The aim and desired outcome of the proposal is to achieve the proposed budget savings in a way that the service continues to meet its statutory duties and minimises adverse impact on service users, taking in to account previous budget savings and the cumulative effect on service delivery. The Adult Social Care Target Operating Model (TOM) is committed to service transformation, through efficient processes, through promoting the independence of individuals and reducing reliance on council funded services, and through utilising the approach around the Use of Resources Framework of Prevention; Recovery; Long term support; Process; Partnership; and Contributions.
2. How does this contribute to the council's corporate priorities?	The Adult Social Care Service plan and TOM contribute to the council's overall priorities and will ensure that the savings targets are achieved in line with the corporate Business Plan and the Medium Term Financial Strategy. It is also in line with the July principles, adopted in 2011 by councillors, which sets out guiding strategic priorities and principles, where the order of priority services should be to continue to provide everything which is statutory and maintain services, within limits, to the vulnerable and elderly.
3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.	Adult Social Care service users who utilise ASC commissioned taxis and commissioned taxi providers.
4. Is the responsibility shared with another department, authority or organisation? If so, who are the partners and who has overall responsibility?	N/A

#### 5. What evidence have you considered as part of this assessment?

Provide details of the information you have reviewed to determine the impact your proposal would have on the protected characteristics (equality groups).

Many clients living in their own homes and / or in our Supported Living Service already book taxis directly themselves, often securing a cheaper price per journey. Experience shows that clients tend to use the same companies for their journeys, which often results in the use of regular drivers.

1. What are the aims, objectives and desired outcomes of your proposal? (Also explain proposals e.g. reduction/removal of service, deletion of posts, changing criteria atc)	To review the transport arrangements for in-house day centre units, to link transport more directly to the provision. This may mean that transport arrangements for day centre users may change as day centres will have more flexibility in the use of vehicles. Those who can travel by other means may no longer be offered council transport and the arrangements for others may change. #### 5. What evidence have you considered as part of this assessment?

Provide details of the information you have reviewed to determine the impact your proposal would have on the protected characteristics (equality groups).

We have made a number of changes to transport arrangements in the last few years, including using staff from day services as drivers and escorts to bring people from home to their day service. These changes have been well received by clients and carers and have not changed the basic premise, which is a safe and well managed journey from home to the day centre.

As the service users will either be elderly or have a learning or physical disability, consultation with them, or their representatives, will be as part of our usual engagement process and on-going throughout the development of this proposal.

(Also explain proposals e.g. reduction/removal of service, deletion of posts, changing criteria etc)	A reduced reliance on agency staff should result in a more stable workforce committed to the aims of the service. However, there could be reduced / delayed services and it may lead to a less responsive service with increased waiting times for service users.  The aim and desired outcome of the proposal is to achieve the proposed budget savings in a way that the service continues to meet its statutory duties and minimises adverse impact on service users, taking in to account previous budget savings and the cumulative effect on service delivery. The Adult Social Care Target Operating Model (TOM) is committed to service transformation, through efficient processes, through promoting the independence of individuals and reducing reliance on council funded services, and through utilising the approach around the Use of Resources Framework of Prevention; Recovery; Long term support; Process; Partnership; and Contributions.
2. How does this contribute to the council's corporate priorities?	The Adult Social Care Service plan and TOM contribute to the council's overall priorities and will ensure that the savings targets are achieved in line with the corporate Business Plan and the Medium Term Financial Strategy. It is also in line with the July principles, adopted in 2011 by councillors, which sets out guiding strategic priorities and principles, where the order of priority services should be to continue to provide everything which is statutory and maintain services, within limits, to the vulnerable and elderly, with the council being an enabler, working with partners to provide services.
3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.	Agency staff and service users with mental health issues.
4. Is the responsibility shared with another department, authority or organisation? If so, who are the partners and who has overall	The Mental Health Trust. HR input will be required.

#### 5. What evidence have you considered as part of this assessment?

Provide details of the information you have reviewed to determine the impact your proposal would have on the protected characteristics (equality groups).

The learning from the previous re-structure (May 2016) and review (Feb 2017) of Adult Social Care has informed this proposal, specifically the need to ensure that any changes to the staffing structure ensure there is sufficient staffing to fulfil statutory obligations.

Consideration has been given to bringing the line management of this service back into the council, to address the somewhat artificial separation between which work is directed to this team and which work is carried by the teams based within the council. This should enable management efficiencies, closer working relationships between social care staff and more consistent outcomes for service users.

1. What are the aims, objectives and desired outcomes of your proposal? (Also explain proposals e.g. reduction/removal of service, deletion of posts, changing criteria	To review the role and focus of Public Health in the light of ending of Public Health grant, which may result in a change in the Public Health offer. The ring fenced Public Health Grant ends in March 2020, when funding becomes part of the Business Rate funding settlement. It is not known what will happen to mandation of PH services and what 100% BBR will mean for the funding of the council as a whole. The review of PH funding will have to take into consideration its impact on other services.  The aim and desired outcome of the proposal is to achieve the proposed budget savings in a way that the service continues to meet its statutory duties and minimises adverse impact on service users, taking in to account previous budget savings and the cumulative effect on service delivery. #### 5. What evidence have you considered as part of this assessment?

Provide details of the information you have reviewed to determine the impact your proposal would have on the protected characteristics (equality groups).

National work on the Fair Funding Review is ongoing to develop an improved and simplified method of determining individual LA needs that can be applied in the BRR regime. It is expected that this will include PH as a significant factor. PH need, including the influence of demographic changes and deprivation could be informed by the ACRA formula (revised as necessary), the proposed 5 yearly DCLG general resets, as well as policy decisions on pace of change etc. A consultation on the design of the reformed funding system closed in May 17 but the outcome has not yet been reported.

Dublic Health services have recently been redesigned and re-commissioned according to PH TOM signed off in March 17, with a reduction in Benior staff and broadening of roles for joint commissioning (across the council with C&H and CSF and with the CCG). There is now little scope further team reduction but scope for efficiency through the further development of joint commissioning roles.

An ongoing review of the range and scope of PH services has been commissioned.

The Managing Organisational Change Framework will be followed for any impact on staffing.

#### 5. What evidence have you considered as part of this assessment?

Provide details of the information you have reviewed to determine the impact your proposal would have on the protected characteristics (equality groups).

The learning from the previous re-structure (May 2016) and review (Feb 2017) of Adult Social Care has informed this proposal, specifically the need to ensure that any changes to the staffing structure ensure there is sufficient staffing to fulfil statutory obligations.

Consideration has been given to bringing the line management of this service back into the council, to address the somewhat artificial separation between which work is directed to this team and which work is carried by the teams based within the council. This should enable management efficiencies, closer working relationships between social care staff and more consistent outcomes for service users.

## **Equality Analysis**

What are the proposals being assessed?	Proposed budget saving CH84 Public Health
Which Department/ Division has the responsibility for this?	Community and Housing, Public Health

Stage 1: Overview	
Name and job title of lead officer	Dagmar Zeuner, Director of Public Health
1. What are the aims, objectives and desired outcomes of your proposal? (Also explain proposals e.g. reduction/removal of service, deletion of posts, changing criteria etc)  Dagger	To review the role and focus of Public Health in the light of ending of Public Health grant, which may result in a change in the Public Health offer.  The aim and desired outcome of the proposal is to achieve the proposed budget savings in a way that the service continues to meet its statutory duties and minimises adverse impact on service users, taking in to account previous budget savings and the cumulative effect on service delivery. The Public Health Target Operating Model (TOM) vision and goals are to protect and improve physical and mental health outcomes for the whole population in Merton throughout the life course, and reduce health inequalities, especially between the West and East of the borough, within the shrinking financial envelope available whilst fulfilling our statutory Public Health duties.
How does this contribute to the council's corporate priorities?	The Public Health Service plan and TOM contribute to the council's overall priorities and will ensure that the savings targets are achieved in line with the corporate Business Plan and the Medium Term Financial Strategy. It is also in line with the July principles, adopted in 2011 by councillors, which sets out guiding strategic priorities and principles, where the order of priority services should be to continue to provide everything which is statutory and maintain services, within limits, to the vulnerable and elderly.
3. Who will be affected by this proposal? For example who are the external/internal customers, communities, partners, stakeholders, the workforce etc.	Residents of Merton.
4. Is the responsibility shared with another department, authority or organisation? If so, who are the partners and who has overall responsibility?	N/A.

#### 5. What evidence have you considered as part of this assessment?

Provide details of the information you have reviewed to determine the impact your proposal would have on the protected characteristics (equality groups).

A consultation on the design of the reformed funding system closed in May 17 but the outcome has not yet been reported.

National work on the Fair Funding Review is ongoing to develop an improved and simplified method of determining individual LA needs that can be applied in the BRR regime. It is expected that this will include PH as a significant factor. PH need, including the influence of demographic changes and deprivation could be informed by the ACRA formula (revised as necessary), the proposed 5 yearly DCLG general resets, as well as policy decisions on pace of change etc.

#### Stage 3: Assessing impact and analysis

6. From the evidence you have considered, what areas of concern have you identified regarding the potential negative and positive impact on one or more protected characteristics (equality groups)?

Protected characteristic	Tick whi	Tick which applies		h applies	Reason
(equality group)			Potential negative impact		Briefly explain what positive or negative impact has been identified

## **Children Schools & Families**

## Children's Social Care & Youth Inclusion Clir Katy Neep: Cabinet Member for Children's Services Enter a brief description of your main activities and objectives below

Children's Social Care (CSC) delivers a range of government prescribed & legislated functions to children at risk of harm, children in care, children with disabilities care leavers & young offenders, as well as wider services for families.

CSC works within an integrated context co-ordinating multi agency support to those families at all levels of Merton's Child & Young Person (CYP) Well-being Model. The service works with approximately 1,300 children at any one time who have the greatest needs in the borough across a range of outcomes: safety, well-being, health, education & life chances.

Merton's CYP Well-being Model sets out Merton's approach to supporting families which seeks to provide services at the time they are needed to prevent further need arising & escalation up the model. This is the most efficient use of resources & CSC undertakes a range of family support activity to prevent children entering either child protection or care systems at every stage of childhood. This necessitates a strong commitment to robust assessment & thresholds, which require a quality assurance function to ensure ongoing success of the model.

Merton has lower numbers of children subject to child protection plans in the care system than the majority of London Boroughs, as well as lower numbers of first time entrants, and seeks to continue this approach, therefore ensuring that we minimise the use of costly high end interventions with our families & promote family strengths to enable them to care for their own children.

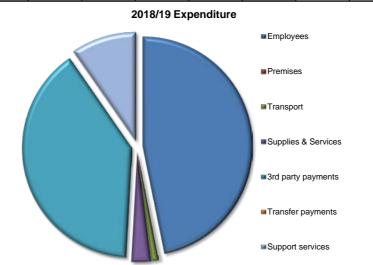

Youth Inclusion provides a targeted service to support vulnerable young people & their parents to prevent offending & re-offending. It also supports the transforming families programme, helping targeted families to get back into work, & improve the outcomes for their children by preventing reoffending or going into care. It also leads on participation for CSF.

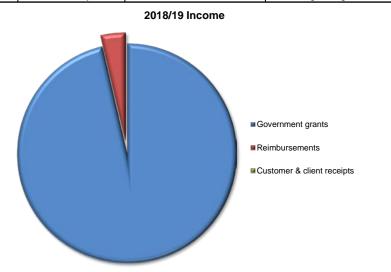

Access to resources for looked after children/external placement provision Recruitment of in house foster carers.

			PROJECT DESCRIPTION	MAJOR PROJECTS BENEFITS	Likelihood	Risk Impact	Score
Pro	oject 1	Project Title:	East Merton Model of Health and Wellbeing/Wilson (TOM URN: PH 5)	Improved effectiveness	Likomioou	mpaot	000.0
Start date  End date	2018/19	Project Details:	TOM TRANSFORMATION DELIVERY PLAN - EAST MERTON MODEL AND WILSON Public Health, Merton CCG and the East Merton GP Locality are working in partnership to develop and deliver the East Merton Model of Health and Wellbeing and Wilson health and community campus as blueprint for borough-wide health and care transformation. This is a major programme aimed at co-creating a model for East Merton, incorporating design of health and community campus, community engagement, better use of wider public sector estates and development of social investment funding models. There are some key programmes of work that sit under this, including Social Prescribing, and a Whole System Approach to Diabetes: SOCIAL PRESCRIBING: Social prescribing is part of the programme and a major component in the CCG's Primary Care Strategy and the development of the model of multi-speciality community provider, strengthening relationships between primary care and the voluntary and community sector and services. WHOLE SYSTEM APPROACH TO DIABETES: Develop a whole systems approach to Diabetes, as agreed by the Health and Wellbeing Board in June 2017. This will be an exemplar for future work, is a pivotal opportunity as it connects the HWBB (as systems leaders) with health professionals, local place shapers (Clirs and GPs) and community 'connectors' to develop systems leadership and build a social movement to identify ideas and ways to tackle diabetes together. This will in turn inform the developing East Merton Model of Health and Wellbeing.  PH Lead: Amy Potter		3	3	9

			PROJECT DESCRIPTION	MAJOR PROJECT BENEFIT	Likelihood	Risk Impact	Score
Pr	oject 1	Project Title:	Customer Contact programme	Improved customer experience	LIKEIIIIOOO	impact	Score
Start date  End date	2013-14	Project Details:	Lead and deliver CC programme; to deliver improvements (technology and service redesign) set out in CC Strategy.	The programme is part of the move to a 21st Century organisation, with technology that supports a more comprehensive and cohesive service to customers and recognises the new, modern ways in which they wish to access services. Through channel shift and a reduction in avoidable contact/failure demand we expect the programme to support and enable the achievement of savings and efficiencies within individual services.	3	2	6
Pr	oject 2	Project Title:	Electronic document and records management system	Improved efficiency (savings)			
Start date  End date	2013-14	Project Details:	Procure and implement a replacement EDRMS to support and enable flexible/remote working and Customer Contact.	EDRMS will enable flexible and remote working, more efficient and cost effective storage and retrieval of documentation.	3	2	6

Start date	2017-18	Project Details:	Selecting new strategic partners from the voluntary sector to provide Information, Advice and Guidance plus support and advice to the sector as a whole. This will involve co-producing specifications with the voluntary sector and statutory partners. The new programme will start in April	Improved Information, Advice and Guidance will improve prevention/early intervention and defer the need for expensive acute interventions. As the range of public sector services reduce and thresholds are raised, the voluntary sector is an increasingly important provider of services to residents. It is vital that			0

Pagistrars - responsible for registration of hiths & deaths marriages & civil nartherships								

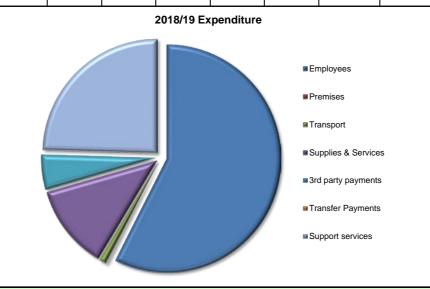

Registrars - responsible for registration of births & deaths, marriages & civil partnerships, citizenship ceremonies & nationality services;

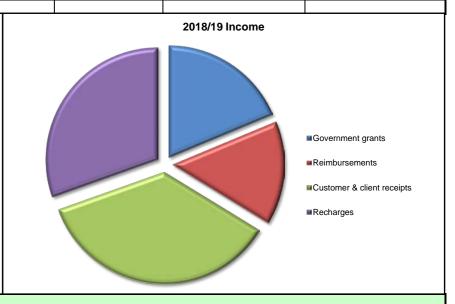

Bailiffs - collection of outstanding warrants in a shared service between Sutton & Merton for all areas especially council tax and parking fines.

Front line service for Universal Credit - local authorities will be responsible for delivering front line services for universal credit for those claimants that cannot claim and access on-line. It is anticipated that this new service will be delivered towards the end of this service plan period but details are vague due to the uncertainty of the roll-out of the scheme and the continual deferral from central government. It is also unclear how the roll out of Universal Credit will impact on the Housing Benefit caseload and workload

			PROJECT DESCRIPTION	MAJOR PROJECT BENEFIT	Likelihood	Risk	Score
	Project 1	Project Title:	Morden Leisure Centre	Improved customer experience	LIKCIIIIOOU	Impact	OCOIC
Start da		- Project Details:	Deliver a new Morden Leisure Centre as a family friendly and community leisure centre to replace Morden Park Pools.	Brand new leisure facility providing a modern and increased range of leisure facilities with a family friendly appeal. Delivered against the outcomes of a public consultation.	2	2	4
	Project 2	Project Title:	Morden Park Pools	Risk reduction and compliance			
Start da		- Project Details:	Decommission and demolish the existing Morden Park Pools and reinstate the land to fit in with the Morden Park landscape	Once the Morden Park Pools becomes disused and derelict it will be an increased risk to break-ins and unlawful use. It is a building which contains a number of hazardous which increase once not in use.	2	2	4
End dat							
	Project 3	Project Title:	Leisure Centres Contract	Economic outcomes			
Start da	e <b>2017</b>	Project Details:	Vary the Leisure Centre Contract to take account of the new Morden Leisure Centre and any other variations that might be appropriate at this time. E.g Contract Length; Changes linked to Canons HLF	The new leisure centre will increase the income over expoenditure of the leisure centres operation, which will provide an increased income to the council.	2	1	2
End dat	e <b>2018</b>		bid; etc.				
	Project 4	Project Title:	Implement the Wimbledon Park Lake Flood Risk & De-silting Plans	Risk reduction and compliance			
Start da		- Project Details:	Develop solutions and plans to de-silt and implement flood risk requirements to deliver solutions for the lake. Procure and implement the solutions	There are a number of requirements on the council to address flood risks of this reservoir. It is also a facility that has been silting up for 300 years. Works to the lake to address the silt issues and flood risks will enhance our compliance for years to come.	4	3	12
End da		Drainet Title	Wimbledon Park Watersports and Outdoor Adventure Centre	Footomic suttomes			
	Project 5	Project Title:	Willibledon Park Watersports and Outdoor Adventure Centre	Economic outcomes	-		
Start da		- Project Details:	Commission works to determine the most effective management solution for this service. Implement the solution.	This service has not yet been market tested to determine its efficiency and effectiveness within its own market, nor has it been evaluated for alternative business models. The outcomes of this work will address this and give clarity on the possible economic benefits	2	2	4
N							
<u> </u>	Project 6	Project Title:	London Borough Of Culture - Merton	Improved customer experience			
Start da		- Project Details:	Deliver those elements of the London Borough of Culture Bid that are successful for Merton and in partnership where appropriate across London	This programme, if successful, will bring increased cultural activities primarly to the east of the borough, enhancing the lives of many of the community through culture.	2	2	4
	Project 7	Project Title:	WW1 Victoria Cross Commemorative Stone Laying	Improved reputation			
Start da		- Project Details:	Deliver an appropriate ceremony with key partners on the due date	Merton has had 2 recipients of the Victoria Cross in WW1. The first Commemorative Stone laying has already been completed and this year will see the second such ceremony, resulting in increased reputational significance for Merton.	2	2	4
End dat							
	Project 8	Project Title:	Wimbledon Park Watersports and Outdoor Adventure Centre	Infrastructure renewal			
Start da	e <b>2019</b>	- Project Details:	Develop proposals, gain approvals and funding for a new watersports centre. Construct new facility and demolish existing once completed.	The current Watersports and Outdoor Centre is becoming tired and deteriorating. If this service is to continue this facility will need to be replaced with a more economically and efficient structure that is fit for	3	1	3

#### **Commissioned Service**

#### Parks & Green Spaces

**CIIr Nick Draper Cabinet Member for Community & Culture** 

# Service Provider:

idverde UK Ltd

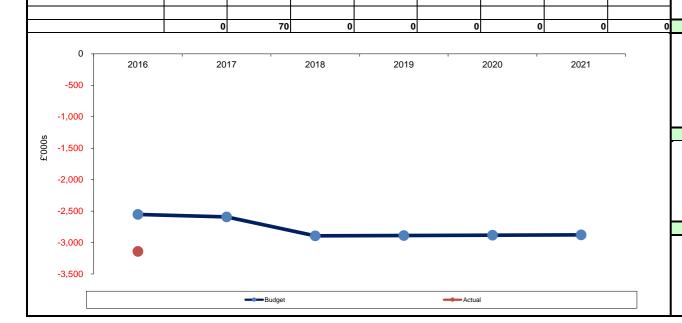

The service maintains and develops Merton's numerous parks & open spaces (more than 115 separate sites), including sports facilities (including pavilions), gardens, playgrounds (more than 40), the borough's highways verges, and the management of its cemetery and allotments services. The portfolio also includes support for, and the production of, a varied programme of outdoor events from small community to large commercial ones in parks, including the annual civic fireworks displays, Mitcham Carnival and elements of the Wimbledon (tennis) Championships. The service manages more than 50,000 Council-owned trees and several nature reserves. Greenspaces serves as the managing agent for Mitcham Common (for the Mitcham Common Conservators) and the Merton & Sutton Joint Cemetery (for the Merton & Sutton Joint Cemetery Board).

The grounds maintenance elements of the service are outsourced to idverde UK Limited, overseen by the Greenspaces client team who, in

Start date  End date	01/04/2017 None		Building on the success of the UK SAYS NO MORE launch in September 2016, where Merton was the second London borough to launch the campaign to condemn Domestic Violence and Sexual Violence, the Community Safety Partnership wish to roll the programme out across other strands of key business. This will ensure that Merton's residents and businesses are fully aware of the Community Safety Partnership's commitment to tackling a range of issues affecting our residents	Improved victim awareness, increased profile for Merton as a pro-active borough in addressing crime and ASB and associated reputational benefits across London	2	2	4
Pr	oject 2	Project Title:	DVA commissioning	Improved customer experience			
Start date  End date	01/01/2017 30/06/2018		To bring together the two contracts for Independent Domestic Violence Advocates (IDVAs) and Mertons Refuge provision together to recommission. The recommission will be under a 3+1+1 term seeing a rise in investment from across the directorates of CSF, C&H and E&R. This work will improve the victims journey ensuring that the victims recieve the right support, at the right time	Improved victim journey, improved outcomes for families, improved safety and an improved reputation for merton as a borough whom delivers good quality service to victims	2	3	6

#### Commissioned Service

**Waste Management and Cleansing** 

**Cllr Ross Garrod Cabinet Member for Street Cleanliness & Parking** 

Cllr Martin Whelton Cabinet Member for Regeneration, Environment & Housing

**Service Providers:** 

Veolia UK Ltd

**Viridor Waste Management** 

**Kingdom Ltd (Environmental Protection)** 

Noah's Ark (Stray Dogs / Enforcement)

The London Borough of Merton is committed to managing the provision of high quality and sustainable waste management and cleansing services to residents, businesses and those passing through the borough. The service ambition is to maintain a clean, green and safe environment that meet the standards of London's Best Council.

These services are delivered through a combination of commissioned services and in-house engagement and enforcement activities.

#### The key objectives of the service are:

**Planning Assumptions** 

To fulfil the council's statutory responsibilities and duties with respect to waste management, street cleaning, waste enforcement and the management of stray animals.

To provide value for money services that meet the needs of the community

To provide a safe and supportive environment for our community and all employees engaged in delivering services.

To promote and encourage sustainable waste management activities, maximising resource efficiency and securing value from all waste streams as far as practicably possible
