Agenda Item 8

Cabinet

Date: 19 September 2016

Subject: Financial Report 2016/17 – June 2016

Lead officer: Paul Dale

Lead member: Mark Allison

Recommendations:

A. That Cabinet note the financial reporting data relating to revenue budgetary control, showing a forecast net overspend at year end of £2.7million, 0.5% of the gross budget.

B. That Cabinet note the proposed adjustments to the Capital Programme detailed in appendix 5b and approve the two items in the Table below:

Scheme	2017/18 Budget Adjustment		Revised 2017/18 Budget	Estimated Useful Life
	£	£	£	£
SWLPVehicles*	0	4,190,000	4,190,000	8 Years
SWLP Wheelie Bins	0	1,512,000	1,512,000	15 Years
Total **	0	5,702,000	5,702,000	

^{*}to note that this expenditure will be required regardless of whether or not the Phase C of the Waste Partnership isprogressed.

**This investment will significantly contribute towards the estimated £2 million of annual revenue savings (allowing for the debt charges of the scheme)

- C. That Cabinet endorses the addition of the £5.702 million SWLP Scheme above and that this is sent to Council on 23 November 2016 for its approval.
- D. That Cabinet note the virement of £109k from the corporate contingency to Children, Schools and Families for the first quarter costs of additional social worker capacity and the virement from Corporate Services to Community and Housing for the housing benefit cost for temporary accommodation.

1. PURPOSE OF REPORT AND EXECUTIVE SUMMARY

1.1 This is the financial monitoring report for the first quarter of 2016/17 presented in line with the financial reporting timetable.

This financial monitoring report provides:-

- The income and expenditure at period 3 and a full year forecast projection.
- An update on the capital programme and detailed monitoring information;
- An update on Corporate Items in the budget 2016/17;
- Progress on the delivery of the 2016/17 revenue savings
- Progress on the delivery of 2014/15 and 2015/16 revenue savings

2. THE FINANCIAL REPORTING PROCESS

2.1 The budget monitoring process will focus on adult social care and children's social care as these areas are forecasting significant overspends.

2.2 Chief Officers, together with Service Financial Advisers and budget managers are responsible for keeping budgets under close scrutiny and ensuring that expenditure within budgets which are overspending is being actively and vigorously controlled and where budgets are under spent, these underspends are retained until year end. Any final overall overspend on the General Fund will result in a call on balances as has been the case for the last two financial years.

2.3 2016/17 FORECAST OUTTURN BASED UPON LATEST AVAILABLE DATA

Executive summary – At period 3 to 30th June 2016 the year end forecast is a net £2.7m overspend compared to the current budget.

Overview

The Corporate Services (CS) department are forecasting an underspend of £106k at year end. This compares to a P2 forecast overspend variance of £315k. The swing of £421k is largely the result of an accounting treatment change relating to temporary accommodation.

Business Improvement - £83k under

The forecast underspend is due to an overachievement of street naming income.

Resources - £80k over

Resources are now forecasting an overspend due to the additional costs relating to the delayed implementation of the FIS/E5 finance system.

Human Resources

Owing to the restructure to bring the HR service back in house, it has not been possible to provide a meaningful forecast variance for P3. However, with the help of business partners, HR staff and CS budget management it is expected a forecast will be provided for P4. Having periodically reviewed spend so far this year, it is unlikely a material forecast variance will be reported.

<u>Customer Services - £130k under</u>

Customer services are forecasting a £130k underspend. £100k of this is due to a net underspend in the Bailiff Service. The Merton Bailiff Service is forecasting overachieving income by £237k but this is offset by a forecast £207k underachievement of income in the Shared Bailiff Service. The remainder is due to an underspend on Bailliff's fees. An additional

£25k is an overachievement of translation services income. Of this, two thirds of the overachievement relates to external customers and one third internal customers.

Corporate Governance - £147k under

Corporate Governance are forecasting a £147k underspend. This is in large part due to a £52K underspend in Internal Audit as a consequence of an Audit Partnership restructure. £38k relates to Benefits investigation where a 17/18 saving has been captured early.

Corporate Items - £208k over

In 15/16 there was a £743k shortfall in subsidy, and therefore overspend, for temporary accommodation. This is because the cost of temporary accommodation was significantly higher than the subsidy available which is capped. The cost of temporary accommodation was disclosed in Housing Services within C&H whereas the benefit paid was shown within corporate items in CS together with Housing Benefits subsidy grant.

As indicated last year, the accounting for this has been reviewed for P3. For financial year 16/17 and onwards the benefit paid and grant recovered, and therefore the shortfall, will appear in C&H budgets so the true cost of temporary accommodation is captured and reported in the correct division. A budget of £321k relating to temporary accommodation has been vired from CS to C&H to help offset this.

The net position of this review is that £546k overspend that was showing in CS P2 is now showing in C&H P3. This explains why the Corporate Items forecast overspend has reduced by £452k between P2 and P3. It has not reduced by the full £546k due to higher forecast of redundancy costs owing to high actuals up to P3.

The budget monitoring process will focus on pressures to ensure remedial action is taken and underspends can be held to offset any overspends.

<u>Overview</u>

The department is currently forecasting an underspend of £72k at year end. The main areas of variance are Regulatory Services, Property management, Greenspaces, Senior Management & Support, and Transport Services.

Pressures

Public Protection

Regulatory Services – forecasting a total £83k underspend

The forecast employee underspend of £112k is as a result of vacancies, which are in the process of being recruited to. This underspend is being partially offset by a small underachievement of Licensing income.

Parking & CCTV Services – forecasting a total £33k underspend

The implementation of the ANPR infrastructure across the borough is now complete, and the contract has now commenced. It is expected that improved compliance and traffic flow at the locations concerned will be seen within a couple of months. We are now awaiting the first set of clear data from the system, which should be received within the next week or two, before adjusting the forecast accordingly.

Sustainable Communities

Property Management – forecasting a total £203k underspend

The main reason for the forecast underspend is as a result of exceeding their commercial rental income expectations by £224k due to a combination of rent reviews and a continuing high occupancy rate.

Greenspaces – forecasting a total £151k overspend

The forecast employee overspend of £97k is as a result of overtime payments (Parks), and staffing of the firework displays.

The section is also forecasting an underachievement of income of £198k, which is a result of an underachievement of sports income (£100k), and the 'Live at Wimbledon Park' event (£69k). Although this event is expected to break-even this year, there is a budgeted expectation for it to achieve a surplus of £69k..

These pressures are being partially off-set by expected underspends within Premises (£35k), Supplies & Services (£71k), and Grants & Contributions (£55k).

Senior Management & Support – forecasting a total £91k underspend

An underspend of £91k is being forecast mainly due to not filling vacant posts in order to contribute towards the department's mitigating actions.

Street Scene & Waste

Transport Services – forecasting a total £134k overspend

The overspend is mainly as a result of additional agency and overtime requirements due to a number of staffing issues, which are being addressed in line with corporate policy.

Overview

At the end of June Children Schools and Families had a forecast overspend of £1.872m on local authority funded services. Close scrutiny of overspending areas and management action to off set these overspends are on-going by the management team.

Local Authority Funded Services

There are a number of volatile budgets, which require continuous and careful demand management. Significant cost pressures and underspends identified to date are detailed below:

Budget Jun May 2015/16 £000 £000 £000 **Description** £000 Fostering and residential placements (ART) 5.056 206 521 377 Supported lodgings/housing 634 909 494 546 Un-accompanied asylum seeking children (UASC) 492 308 60 557 Procurement & School organisation (208)550 (208)(276)Other small over and underspends 1,578 (151)(278)(4) **Subtotal Commissioning, Strategy and Performance** 1,313 8,047 1,295 677 **SEN Transport** 4,022 447 507 374 Staffing underspends across Early Years services 2,838 (250)(250)(315)Children with disabilities team (CWD) staffing 140 541 70 8 Other small over and underspends 8,798 29 (33)**Subtotal Education** 16,260 296 399 34 No Recourse to Public Funds (NRPF) 430 470 470 20 Social Work staffing 3,075 447 225 151 Other small over and underspends 8.367 (118)53 (59)**Subtotal Children's Social Care and Youth Inclusion** 11,413 759 748 309

Commissioning, Strategy and Performance Division

While the numbers of Looked After Children (LAC) remain relatively stable, the complexity of a significant proportion of cases is causing cost pressures as detailed below. Placements are checked on a monthly basis and assumptions reviewed quarterly to ensure that they are as accurate as possible. Our arrangements have been strengthened following a review of the 2015/16 outturn.

Service	Budget £000	Forecast spend £000	Variance £000	Number of placements £000
Residential Placements	2,127	2,355	228	23
Independent Agency Fostering	1,761	1,739	(22)	42
In-house Fostering	905	1,112	207	60
Secure accommodation	164	22	(142)	1
Mother and baby	99	34	(65)	1
Total	5,056	5,262	206	127

High cost residential and independent agency fostering placements are only used when all other options have been considered and it is deemed that these are in the best interest for the children involved. The current estimated spend is less than last year and based on the latest available information which will change later on in the year as new cases are presented or cases closed.

The budget for semi-independent and supported lodgings/housing placements is estimated to overspend by £909k. This budget is used to finance an increased number of placements for young people aged 16/17 and above due to the requirements for Staying Put. These young people require semi-independent provision and for Care Leavers through to independence or, in some cases, through to the age of 21, as part of our new statutory duties. There are currently 55 placements which is up from 35 in 2014/15.

The UASC payments are expected to overspend by £557k this year due to an increase in cases. At the end of June there were 23 placements with an increased number of claimant turning 18 later during the year, although this increase has been included in the June forecast.

Procurement and school organisation budgets are expected to underspend by £208k as a result of lower spend forecast on revenuisation budgets. This budget relates to construction projects that cannot be classified as capital. The majority of this is required for temporary classrooms due to rising pupil demand when it is not viable to provide permanent buildings.

There are various other small over and underspends forecast across the division netting to a £151k underspend. These combine with the items described above to arrive at the total reported divisional overspend of £1.313m.

Education Division

SEN and FE transport cost are expected to overspend by £447k, £73k more than the actual overspend last year due to the full year effect of more expensive placements starting from September 2015. This forecast is calculated using a case-by-case costs model and is reviewed monthly. We are reviewing demand management, cost efficiency of supply, and safeguarding of students with E&R who provide the in-house transport and commission the taxi service.

As part of management action, where possible, recruitment to vacancies in some areas will be delayed in preparation for 2017/18 savings with the aim to reduce the overall in-year departmental overspend. This is estimated to result in an overall underspend of £250k.

The CWD team staffing costs is expected to overspend by £70k. As highlighted in the budget reports to Cabinet and Council, additional capacity is being kept under regular review and funded quarterly from the corporate contingency. This amount equates to two additional social workers. For the first Page 57

quarter an adjustment of £26k have been made towards the overspend for these costs (a maximum of £120k can be adjusted for the year). On top of the additional staff, the team also has to cover vacancies with higher cost agency staff.

There are various other small over and underspends forecast across the division netting to a £29k overspend. These combine with the item described above to arrive at the total reported divisional overspend of £296k.

Children's Social Care and Youth Inclusion Division

The NRPF budgets are forecast to overspend by £430k for the current financial year. This forecast is based on the assumption that case levels will stay the same as last year. If we receive more successful applications, the level of overspend would increase.

The Central Social Work, MASH and VCT team's staffing costs is expected to overspend by £447k. As highlighted in the budget reports to Cabinet and Council, additional capacity is being kept under regular review and funded quarterly from the corporate contingency. This amount equates to six additional social workers. For the first quarter an adjustment of £83k have been made towards the overspend of these costs (a maximum of £360k can be adjusted for the year). On top of the additional staff, the team also has to cover vacancies with agency staff due to difficulty in recruiting permanent members of staff. This cost could fluctuate during the course of the year depending on our ability to recruit permanent members of staff to our vacancies. Two social workers have also been appointed in excess of the budgeted staffing compliment for a time limited period. This was done to address the increased volumes demand in the MASH team and to ensure the safeguarding of children and is reviewed monthly.

There are various other small over and underspends forecast across the division netting to a £118k underspend. These combine with the item described above to arrive at the total reported divisional overspend of £759k.

Dedicated Schools Grant

DSG funded services is forecast to underspend by £260k. These budgets are not within the council's general fund and cannot be offset against the local authority funded budgets. Any underspend will be added to the DSG reserve and applied after consultation with Schools Forum. Variances between individual subjectives have been shown in the overall departmental analyses.

The main reasons for the forecast relates to an estimated underspend of £215k in Independent Day School provision. It is important to note that new placements which might be required from September onwards could significantly impact on this forecast.

There are various other smaller over and underspends forecast across the DSG netting to a £45k underspend which, combined with the items above, equates to the net underspend of £260k.

Management Action

New burdens

There are a considerable number of duties placed on the Local Authority which have not been fully funded or not funded at all. Excluding the cost of these duties would leave a net departmental underspend of £24k. The table below highlights the estimated overspends relating to these duties:

Description	Budget £000	Jun overspend forecast £000	May overspend forecast £000
Supported lodgings/housing	634	909	494
Un-accompanied asylum seeking children (UASC)	60	557	492
No Recourse to Public Funds (NRPF)	20	430	470
Total	714	1,896	1,456

Staffing

Recruitment and retention (R&R) continues to be a priority at Merton, as the national shortage of children's Social Workers persists. Merton has had particular difficulty recruiting and retaining staff in 3 key areas; Multi Agency Safeguarding Hub & First Response (MASH), Safeguarding & Care Planning (S&CP) and the Children with Disabilities Team (CWDT). These three areas have R&R measures in place, which after a recent review will continue until at least March 2017.

This quarter continues with a steady number of new starters (9 Social Workers), which include 4 to MASH, 2 to S&CP & 2 to CWDT. The planned leavers in May/ June has lead to a small increase in both vacancy rates (25.27%) and turnover (21.38%), going against the downward trend seen since April 2015.

There has been a significant reduction in the numbers of agency staff being used and the quarterly expenditure. In June 2016, there were 30.37 (WTE) agency Social Workers, making up 22% of the Children's Social Work Workforce. 69% of agency social workers are undertaking work in MASH, S&CP and CWDT. Strong recruitment to S&CP has led to 23% of Social workers in this area being agency workers and all vacant posts are under offer. MASH has 43% of agency workers and CWDT has 42% agency workers.

Placements

Our edge of care panel continues to ensure that entry to care threshold is maintained. The impact of increased numbers of UASC is in particular affecting our LAC and care leaver numbers and we remain in the lowest rate of care range in London.

Work continues to ensure we lever in appropriate health contribution to children with complex needs and our ART service is driving down placement costs including through regional partnership commissioning. It is difficult to predict these negotiations on a monthly basis as they are often connected with children's progress in placement.

Our ART Fostering Recruitment and Assessment team is continuing to recruit new foster carers who will offer locally based placements. This continues to ensure a reduction in more expensive agency foster placements.

Our ART Placement service is working with providers to establish more local provision and offer better value placements to the Council. There is now an established agreed cost framework for semi-independent providers and this has resulted in more appropriately priced placements for Care Leavers and older LAC.

We ensure that accurate information about changes to placement costs are kept up to date. We are improving our response to invoice queries by having tight timescales in place. The placement

reconciliation is completed on a monthly basis and builds in challenge meetings with colleagues in corporate finance.

We have tightened up our processes with YOS for obtaining information about young people remanded into secure accommodation and reviewed our forecast methodology. We will contact respite providers on a monthly basis going forward to ensure more accurate forecasts.

Transport

We have continued to develop a number of alternatives to transport and to develop a more cost effective continuum of offer to meet our SEN Transport statutory duties. In the current year to date we have had 1 personal budget taken up providing an annual saving of £6k on top of the 26 takers last year which provided a cost reduction of £101k. In addition 7 young people have been through the independent travel training programme this year providing an on-going cost reduction of £62k on top of the 37 transfers in previous years and 116 now travel with assistance from a Freedom Pass. We are monitoring tight eligibility thresholds and have refused 18 requests for transport in 2015/16.

Work continues through the corporate group to re-procure better value taxi arrangements and to pilot initiatives to provide more cost effective answers to our statutory duties with a growing population.

General

The department continues to scrutinise all budgets to see how we can offset the above costs pressures and others created by growing demographics and new burdens. Where possible we will use grant and income flexibly and will also implement agreed savings for 2017/18 in year if possible to bring our anticipated spend in line with available budgets.

Additional social worker capacity

As highlighted in the budget reports to Cabinet and Council, additional capacity is being kept under regular review and funded quarterly from the corporate contingency. CMT / Cabinet are asked to approve the virement for the first quarter of £109k from the corporate contingency. This adjustment has already been built into budget forecast for June.

Community and Housing

Community and Housing is forecasting to over spend by £3.7m as at June 2016.

There is an underlying over spend in the Adult Services budget of £3.2m in 2015/16, which has been carried forward into the new financial year. In the previous financial year this was partially offset by underspends in other Adult Services budgets, and underspends in other parts of Community and Housing. Current monitoring suggests that offsetting underspends will be at half as much in 2016/17, as under spending budgets in 2015/16 were subject to savings in 16/17.

Part of this overspend was an under-achievement of income of £1m, so a prudent assumption has been made that there will be a similar under-achievement of income this year, whilst doing further investigation with partners.

The current projected overspend against placement budgets requires further investigation as the projected spend from 2015/16 does not reflect the movement in activity. Investigation to date shows that the commitments in the system are broadly accurate, but there are new commitments late in 2015/16 which now have a full year effect. There are also a number of short term placements without an effective end date.

Challenges of Adult Social Care in 2016.17:-

Access and Assessment

Community and Housing will continue to face similar budget pressures in 2016/17 as they did in financial year 2015/16, the main pressures are:-

<u>Complexity of care needs:</u> There is a long term trend in complexity of care needs, whereby the amount of care required per client has increased.

<u>Price pressures:</u> Nationally the market in social care has shown that providers are successfully demanding increases in fees. This means that to secure supply and sustain a viable market Merton had to negotiate new higher fees in 2015/16 and is facing similar challenges in 2016/17. No general uplifts have yet been agreed, but day to day placements are increasingly at higher rates, particularly in residential and nursing care. There are significant cost pressures in the home care market due to the London Living Wage and a high demand for labour. Our contracted Page 62

providers have been struggling to supply the level of carers, which has forced the council to spot purchase care, often at a higher price. Discussions are currently taking place about the potential to increase framework prices to encourage more on-contract activity and to stabilise the market.

A major re-commissioning exercise will be undertaken this year that will seek to create a more sustainable supply of care, without the need to go off contract, and enables providers to prioritise good quality and consistent care. The estimated cost to secure this arrangement is approximately £460k.

Savings

Adult Social Care has a challenging savings target of £5m in 2016/17, of which £3m has been achieved to date. £2m remains to be achieved, of which £1.8m relates to placement budgets.

Transitions

Estimated cost of transitions to adults in 2016/17 is £916k of which to date £767k requires further investigation to establish the likely impact on 2016/17 placement budgets.

Deprivation of Liberty Assessment (Cheshire West judgement)

In 2015/16 the Government provided £80k towards cost of this increased responsibility but to date no announcements of funding for 2016/17. The actual spend on DOLS in 2015/16 was £537k net. Number of cases dealt with during 2015/16 was 651. The estimated number of assessments for 2016/17 is 780 which may result in an over spend of £244k.

Due to budget constraints the adult safeguarding team is in the process of completing a report which will analyse various options to mitigate forecasted over spend one of which might be to prioritise DOLs assessments.

Commissioning under-spend £53k

In the Commissioning Service current underspend is forecasted on the Supporting People contract, dementia hub and salaries budgets.

Direct Provision over- spend £11k

Staffing costs have increased in this area due to Single Status settlements. This service is also reviewing work patterns and will make changes to shift patterns to keep unit costs as low as possible. One registered manager is responsible for both Meadowsweet and Riverside Drive. The aim is to use employees across both internal residential sites where possible, therefore reducing the need for additional bank staff.

Libraries- £125k under-spend

Under spend is due to staff vacancies and reduced expenditure due to building works at the Donald Hope Library.

Merton Adult Education - £263k under-spend

Merton Adult Education (MAE) is expected to move to a commissioning model from September 2016. Current underspend is due to forecasted underspend on staffing and other minor budgets. Current forecast is based on a smooth transfer to the new model.

Housing - £ 231k over-spend

The Housing service is now forecasting to overspend by £231k. The change from last month is due to a change in the accounting of temporary accommodation. To reflect the true cost of temporary accommodation all related costs and budgets were transferred to Housing Services from Corporate Services in June 2016.

An annual budget of £321k was transferred and the forecast costs are £867k resulting in a net position of £546k. This has been mitigated by the over achievement of client contribution and thus results in overspend of £231k.

Public Health

Public Health is currently forecasting £53k underspend as at June 2016. This is due to forecasted overspends in the demand lead STI testing and treatment budget and underspend on the substance misuse budget which is forecasted based on current activity levels.

TOTAL CORPORATE PROVISIONS	6,494	3,898	(2,596)	(1,547)	(3,491)

The forecast underspend on corporate items has increased by £0.691m in June to £2.596m. The reasons for this change are:-

- There is a small change in capital financing costs and investment income is £0.411m higher than estimate due to the level of investments and the interest rate achieved being higher than estimated.
- The provision for early redundancy/severance payments is expected to be underspent by £0.5m:
- Single Status costs are expected to be contained within the provision for this in the accounts and therefore the budget of £0.1m will not be required:
- £0.2m (50%) of the provision for loss of income arising from the disposal of the P3/P4 sites is not expected to be required in 2016/17
- The forecast underspend in the corporate contingency of £1.5m has reduced by £0.109m as this is the amount required to fund the first quarter costs of additional social workers in Children, Schools and Families department.
- Education Services Grant allocations to local authorities are being reduced and in 2016/17 this
 will result in loss of grant currently estimated to be c.£0.234m. ESG allocations are adjusted on
 a quarterly basis to take account of academies opening since November 2015. There will be a
 virement in period 4 from corporate contingencies and provisions to Children, Schools and
 Families to reflect this.

As previously reported, there is a forecast additional income on central government funding of £76k arising from the return to local authorities of some top-sliced New Homes Bonus relating to 2014/15. This has been paid as Section 31 grant.

^{*} Negative spending is caused by accruals - it is envisaged that these will be offset by spend in subsequent months

- a) Community and Housing The under spend shown of £643k is due to the projected underspend on Disabled Facilities Grants, officers are currently investigating how to minimise this underspend. Collier Wood Library Re-fit will not be on site until March 2017 so £150k of £200k budget has been re-profiled into 2017/18
- b) <u>Corporate Services</u> The projected underspend is caused by two major corporate schemes which are the Acquisition Fund £1,533k, Bidding Fund £1,839k. All other schemes are projecting a full spend at year end in 2016/17.
- c) <u>Environment and Regeneration</u> Officers are currently reviewing the in-year spend profile on the following 4 schemes:
 - a. CCTV spend is currently £97k below the profiled budget
 - b. Tackling Traffic Congestion spend is currently £120k below the profiled budget
 - c. Town centre Investment spend is currently £87k below the profiled budget
 - d. <u>Highways Planned Road Works</u> spend is currently £197k below the profiled budget, however, considerable commitments will shortly be paid on this scheme.

In 2016/17 there is one addition to an existing scheme and one new scheme – both sums are funded by section 106 contributions. Within the Parks Investment Budget £60k is been re-profiled forward from 2017/8 (£15k), 2018/9 (£15k) and 2019/20 (£30k) to purchase 15 specialist bins.

As a result of the announcement of the preferred bidder for Phase C Waste and Grounds Maintenance Contracts, subject to the outcome of call in. The following two schemes will need to be added to the capital programme in 2017/18 as it has been confirmed that it will cheaper for all the partners to fund the capital expenditure themselves:

- a. South West London Partnership (SWLP) Vehicles £4.190 million to be funded over 7 years and
- b. South West London Partnership Wheelie Bins £1.59 million to be funded over 15 years

The debt charges for both these schemes are summarised below and will be funded from the savings from the two SWLP contracts:

a) <u>Children, Schools and Families</u> – Currently in-year spend at Dundonald and Singlegate primary expansions are ahead of profiled spend but is still projected to be within budget at year end. A summary of the Primary Expansion Overspend Contingency created to fund projected overspends on three schools is summarised in the Table below

Total	750,200	449,866	25,000	474,866	(238,853)

In addition officers are also projecting a £20k variance on the schools maintenance programme, this results in a total projected underspend at year end of £258k.

4.3 Appendix 5b details the adjustments being made to the Capital Programme this month the Table below summarises the items requiring Cabinet and Council Approval:

4.6 June is one quarter of the way into the financial year, departments have spent much less of their budget than compared to previous financial years. To achieve a projected spend of £36.9m officers will need to spend just under £3.9 million each month. The table over the page shows that officers spent just over £1.9 million in June 2016.

Spend During June 2016

Department	Spend To May 2016 £000s	Spend To June 2016 £000s	Increase £000s

Total Capital	(121)	1,803	1,924

4.7 Based on current spend patterns both 2016/17 to 2018/19 need to be reviewed and realistically profiled. To aid budget managers considerable time has been spent profiling in year budgets and projecting forward these variances to the year end, as a result the projected outturn has reduced to just under £37million.

Appendix 8 details progress on savings for 2014/15. Details of savings achieved and the expected full year affect of these savings in 2016/17 are provided.

6. CONSULTATION UNDERTAKEN OR PROPOSED

6.1 All relevant bodies have been consulted.

7. TIMETABLE

7.1 In accordance with current financial reporting timetables.

8. FINANCIAL, RESOURCE AND PROPERTY IMPLICATIONS

8.1 All relevant implications have been addressed in the report.

9. LEGAL AND STATUTORY IMPLICATIONS

9.1 All relevant implications have been addressed in the report.

10. HUMAN RIGHTS, EQUALITIES AND COMMUNITY COHESION IMPLICATIONS

10.1 Not applicable

11. CRIME AND DISORDER IMPLICATIONS

11.1 Not applicable

12. RISK MANAGEMENT AND HEALTH AND SAFETY IMPLICATIONS

12.1 The emphasis placed on the delivery of revenue savings within the financial monitoring report will be enhanced during 2016/17, the risk of part non-delivery of savings is already contained on the key strategic risk register and will be kept under review.

Pay and Price Inflation as at June 2016

In 2016/17, the budget includes 1% for increases in pay and 0.5% for increases in general prices, with an additional amount of £0.540m which is held to assist services that may experience price increases greatly in excess of the inflation allowance provided when setting the budget. It will only be released when it is certain that it will not be required.

Pay:

The local government pay award for 2016/17 has been agreed and will cover the two years from April 2016. For the lowest paid (those on spinal points 6-17) this means a pay rise of between 6.6% and 1.01% in the first year, and between 3.4% and 1.3% in the second. Those on spinal points 18-49 will receive 1% in year one and the same again the following year. The offer also includes a joint review of the NJC pay spine and term-time working for school support staff. The budget has now been reallocated to services.

Prices:

The Consumer Prices Index (CPI) rose by 0.5% in the year to June 2016, compared with a 0.3% rise in the year to May. The June rate is a little above the position seen for most of 2016, though it is still relatively low historically.

Rises in air fares, prices for motor fuels and a variety of recreational and cultural goods and services were the main contributors to the increase in the rate. These upward pressures were partially offset by falls in the price of furniture and furnishings and accommodation services.

CPIH, a measure of UK consumer price inflation that includes owner occupiers' housing costs, rose by 0.8% in the year to June 2016, up from 0.7% in May.

The RPI 12-month rate for June 2016 stood at 1.6%, up from 1.4% May 2016.

Outlook for inflation:

At its meeting ending on 13 July 2016, the MPC voted by a majority of 8-1 to maintain Bank Rate at 0.5%. The Committee also voted unanimously to maintain the stock of purchased assets financed by the issuance of central bank reserves at £375 billion.

The Bank of England's Monetary Policy Committee (MPC) sets monetary policy to meet the 2% inflation target and in a way that helps to sustain growth and employment. In the minutes to the meeting, the MPC noted that "looking further forward, the MPC made clear in its May Inflation Report, and again in the minutes of its June meeting, that a vote to leave the European Union could have material implications for the outlook for output and inflation. The Committee judges that a range of influences on demand, supply and the exchange rate could lead to a significantly lower path for growth and a higher path for inflation than in the central projections set out in the May Report. The Committee will consider over the coming period how the outlook for the economy has

changed in light of the referendum result and will publish its new forecast in its forthcoming Inflation Report on 4 August."

The latest inflation and unemployment forecasts for the UK economy, based on a summary of independent forecasts are set out in the following table:-

Source: HM Treasury - Forecasts	for the UK Eco	onomy (July 20	16)
2016 (Quarter 4)	Lowest %	Highest %	Average %
CPI	0.2	3.0	1.3
RPI	1.1	3.4	2.2
LFS Unemployment Rate	5.0	5.9	5.3
2017 (Quarter 4)	Lowest %	Highest %	Average %
CPI	1.5	4.0	2.4
RPI	2.1	4.5	3.0
LFS Unemployment Rate	4.9	6.6	5.6

Clearly where the level of inflation during the year exceeds the amount provided for in the budget, this will put pressure on services to stay within budget and will require effective monitoring and control.

Independent medium-term projections for the calendar years 2016 to 2020 are summarised in the following table:-

Source: HM Treasury - Forecasts for the UK Economy (May 2016)												
	2016 2017 2018 2019

Treasury Management: Outlook

The Bank Base Rate has been kept at its low of 0.5% since March 2009. At its meeting ending on 13 July 2016, the MPC voted by a majority of 8-1 to maintain Bank Rate at 0.5%. The Committee also voted unanimously to maintain the stock of purchased assets financed by the issuance of central bank reserves at £375 billion.

In the minutes to the July meeting, the MPC noted that in reaching this decision "Committee members made initial assessments of the impact of the vote to leave the European Union on demand, supply and the exchange rate. In the absence of a further worsening in the trade-off between supporting growth and returning inflation to target on a sustainable basis, most members of the Committee expect monetary policy to be loosened in August. The precise size and nature of any stimulatory measures will be determined during the August forecast and Inflation Report round."

In terms of the economic impact of the decision to leave the EU, it is too soon to be accurate but the MPC noted that "official data on economic activity covering the period since the referendum are not yet available. However, there are preliminary signs that the result has affected sentiment among households and companies, with sharp falls in some measures of business and consumer confidence. Early indications from surveys and from contacts of the Bank's Agents suggest that some businesses are beginning to delay investment projects and postpone recruitment decisions. Regarding the housing market, survey data point to a significant weakening in expected activity. Taken together, these indicators suggest economic activity is likely to weaken in the near term."

The MPC's forecasts of Bank Base Rate in recent Quarterly Inflation Reports which were made pre-Brexit are summarised in the following table:-

The MPC makes its decisions in the context of the monetary policy forward guidance announced alongside the publication of the August 2013 Inflation Report. This guidance was summarised and reported in the July 2013 monitoring report.

The Inflation Report for February 2014 provided a summary of the Bank of England's approach to its proposed monetary policy as the economy recovers and once the unemployment threshold has been reached:-

- The MPC sets policy to achieve the 2% inflation target, and, subject to that, to support the Government's economic policies, including those for growth and employment.
- Despite the sharp fall in unemployment, there remains scope to absorb spare capacity further before raising Bank Rate.
- When Bank Rate does begin to rise, the appropriate path so as to eliminate slack over the next two to three years and keep inflation close to the target is expected to be gradual.
- The actual path of Bank Rate over the next few years will, however, depend on economic developments.
- Even when the economy has returned to normal levels of capacity and inflation is close to the target, the appropriate level of Bank Rate is likely to be materially below the 5% level set on average by the Committee prior to the financial crisis.
- The MPC intends to maintain the stock of purchased assets at least until the first rise in Bank Rate.
- Monetary policy may have a role to play in mitigating risks to financial stability, but only as a last line of defence if those risks cannot be contained by the substantial range of policy actions available to the Financial Policy Committee and other regulatory authorities.

Changes to the Bank Base Rate will depend on how quickly the economy recovers and will be set to achieve the inflation target of 2%.

The MPC sets monetary policy to meet the 2% target in the medium term and in a way that helps to sustain growth and employment.

- 1.2 Since the position was last reported in March 2016, the net level of arrears, i.e. invoices over 39 days old, has increased by £2,046,262.
- 1.3 The net level of level of arrears has increased by £2,138,252 when compared to the position at the end of June 2015.

- 1.4 The above table shows the separate debt owed to CHAS 2013 Ltd.
- 1.5 There is an increase in debt due to the Environmental and Regeneration department of £742,811 since last reported. The majority of this is due to an increased debt to the Town Planning service of £535,000 which is for unpaid Community Infrastructure Levy's.
- 1.6 There is an increase in debt due to the Children Schools and Families department of £839,449 since last reported. The majority of this is due to an increased debt to the departments Finance team of £780,000.
- 1.7 There is an increase in debt due to the Community and Housing department of £567,065 since last reported. The majority of this is due to an increased debt to MASCOT of £260,000 and the departments Finance team of £240,000. MASCOT invoices are issued annually in April and some clients have still not paid their annual charge which has resulted in the increase this quarter.
- 1.8 Table 2 below shows the total net level of arrears for the last five years– not including debt that is less than 39 days old

1.9 The figures in table 2 (above) show that the major area of increase in debt over the four year period is housing benefit overpayments and Community and Housing. It should be noted that the amount of housing benefit paid out has increased over this period. In 2008/09 £61.3 million was paid out and just under £100 million was paid in 2015/16.

- The level of Community and Housing debt over 39 days has increased by just under £1.83 million in the four year period.
- 1.10 The increase in debt for Environment and Regeneration is mainly due to increases in Town Planning, Environmental Health and Trading Standards and Waste debts. These three service units have seen a total of £1.26 million increase since March 2012.
- 1.11 The action being taken to recover the largest debts is outlined below

1 THE PROCESS FOR COLLECTION OF MISCELLANEOUS DEBT

2.1 In considering the current levels of debt, it is important to outline the general process Merton currently has in place to collect its arrears. In general terms the process has 5 stages, as detailed below, although processes employed vary by debt type. It is important to note that most debtors can not pay their outstanding liabilities other than by payment arrangements. Once a payment arrangement has been made it can not be changed without the debtors consent.

2 DEBT OVER ONE YEAR OLD

3.1 Debt over 1 year old has increased by £453,051 since the end of December 2014, an increase of 7.8%.

<u>Debt over 1 year old compared to December 2014</u>

- 3.2 The majority of debt over 1 year old is for Community and Housing debts and housing benefit overpayments.
- The debt for Community and Housing over a year old has increased by £238,623 since December 2014.
- 3.4 Over the past few years council staff have been working closely and following new processes to manage this debt. This work involves regular joint meetings between the financial assessments, social services, client financial affairs and debt recovery teams to review the debts of individual clients and establish action plans for each one.
- 3.5 These actions include, but are not limited to: early intervention from social workers to prevent debts from getting out of control and to ensure that clients are supported earlier to get their finances in order; as part of their induction all new Social Workers spend time with the Financial Assessment Team, to understand how financial assessments are carried out; social workers also check to see if there any safeguarding issues around non-payment of bills and work very closely with the Welfare Benefits Officer; there is more use of credit checks and land registry checks when assessing/investigating debt issues; increased involvement from the client financial affairs team to take appointeeship for those without capacity or appropriate deputyship; Increased identification of cases where we will consider legal action to secure the debt and generally to share information and support each other in the collection and prevention of this debt. Although the debt has grown the actions being taken are mitigating the impact.
- 3.6 The total debt figure for Community and Housing, including debt that is less than 39 days old, is £6.175 million. Of this £4.35 million is Community Care debt. Of the Community Care debt £0.38 million is under 39 days and therefore no formal recovery action has taken place other than issuing an invoice and reminder. Of the remaining £3.97 million debt which is older than 39 days just over £0.75 million is secured debts against charging orders or deferred payment arrangements, £0.9 million is where the council has deputyship or awaiting probate, £0.3 where court action is taking place or there are

- queries on the invoices and a further £0.46 million has repayment arrangements in place. We are actively working on securing the remaining debt by similar means.
- 3.7 A new working group chaired by the Director of Community and Housing has been set up to monitor Community Care Debt and to work across departments to improve processes and ensure best practice is in place to maximise collection of debts at all stages.
- 3.8 The table below shows the breakdown of Community Care debt by recovery action

<u>Total Community Care Debt by recovery action as at June 2016</u> <u>compared to March 2016</u>

Total Debt	4,638,526		4,355,553	

- 3.9 Community Care debt has reduced by £282,973 since the end of March 2016. In the last quarter we have received payment of over £228,000 on one account where we had a deferred payment arrangement in place.
- 3.10 There is £1.8 million of other Community and Housing Debt, this is mainly made up of £275,000 of debt owed to Mascot although the vast majority of this is debt under 39 days old. There is also £1.1 million owed to Housing and Social Services Accountancy team, which is mainly due from Merton CCG and some debt owed from other councils. Just over £350,000 of this debt is over 39 days old and is being pursued.
- 3.11 The total amount of housing benefit debt is £8.046 million, this figure includes £4,014,558 within the sundry debtors system as reported in 1.1 above and the debt still within the housing benefit system.
- 3.12 It has been previously reported that the Department of Work and Pensions commenced a "Real Time" Information initiative at the end of September 2014 which was aimed at identifying overpayments of

- housing benefit. The DWP have compared housing benefit claim data and HMRC data and over the six month life of the initiative highlighted 900 cases for Merton where there were data discrepancies.
- 3.13 In May 2015 the second phase of the initiative commenced and we are receiving approximately 150 cases per month.
- 3.14 As at the end of March 2016, £2.625 million of overpayments have been identified and created. A number of cases have resulted in overpayments of over £10,000 and have been referred to the Internal Audit team and the new joint DWP Fraud team.
- 3.15 Where possible these overpayments are being recovered from ongoing benefit payments. We are entitled to deduct between £10.95 and £23.35 per week from on-going housing benefit dependant on circumstances. Where the change has resulted in housing benefit being cancelled or nil entitlement we contact the claimants employer and are paid a percentage deduction of their salary each month. So far we have over £160,000 set up to recover in this way.
- 3.16 A further tranche of these cases commenced in May 2016.
- 3.17 The Department of Work and Pensions commenced another initiative in the final quarter of 2014/15. This initiative is where council's are encouraged to identify fraud and error within the system and have been awarded set up funding and on-going funding based on achieving performance targets. This initiative is being extended for 2016/17.
- 3.18 The Council met its target for December 2014 to March 2015 and obtained £22,000 in additional funding and exceeded the upper target for the first quarter of 2015/16 and received £23,000 in additional funding. The second quarter target for 2015/16 was not achieved although the third quarter target was achieved and a further £14,000 additional funding received. The performance for the fourth quarter has still not been received. The Council has committed to continuing this initiative for 2016/17 and has received £49,000 funding to administer this.
- 3.19 These two initiatives and the normal churn of claims has resulted in the level of housing benefits debt increasing and it is very likely that it will continue to increase.
- 3.20 Although the overall housing benefit debt has increased there has been an increase in the amount of debt either being recovered from on-going benefit or on arrangements, with £2.9 million being recovered from on going benefit by reducing current housing benefit payments. Just over £4.85 million is on a payment arrangement or recovery from on going benefit

.

3.21 The table below shows breakdown of all housing benefit overpayments by recovery action.

<u>Total Housing Benefit Debt by recovery action from June 2015 to June 2016 by quarter</u>

Total HB Debt	7,454,429	7,234,015	8,024,476	7,973,875	8,046,299

- 3.22 We have continued to review and target all housing benefit debt. We have tried to improve the procedures at the beginning of the process when a debt is first identified by ensuring that invoices are raised as soon as possible to give the best chance of recovery, we are targeting debtors who are now in work and we will be applying to recover the overpayments from their employers and we are looking at the oldest debts to consider if they are still collectable. However, it should be noted that a lot of the housing benefit debt is very difficult to recover as the Council's powers of recovery are very limited unless the debtor works or owns their own property.
- 3.23 The table below shows the amount of debt written off in accordance with financial regulations and scheme of management in 2014/15, 2015/16 and 2016/17.

Debt written off in 2014/15, 2015/16 and 2016/17 by debt type

Total	£2,715,085	£2,702,565	£364,287	£0	£0	£0	£364,287

- 3.24 Of the business rates debt written off in 2014/15 just over £400,000 related to businesses that went into liquidation and for 2015/16 £392,000 related to businesses that went into liquidation and therefore it was not possible to collect the rates.
- 3.25 Towards the end of 2014/15 an exercise was commenced targeting the highest housing benefit debts with the aim of agreeing payment arrangements where possible and where appropriate writing debts off. This included many large overpayments, some identified through fraud activity where the prospect of collecting the debt was minimal. In some instances payment arrangements were put in place for 5 years and the remainder of the debt written off. If circumstances change of the debtors or after 5 years all payments are made there is the option of writing part or all of the debt back to collect.
- 3.26 Although the debt written off within any of the years does not relate to one specific year it should be noted that in 2015/16 the council was collecting a net debt of £102.6 million in council tax (this includes the GLA potion), a net debt of £92.3 million in business rates (this includes Business Rates Supplement) and approximately £44 million raised through sundry debts.
- 3.27 Every effort is made to collect all outstanding debts and debts are only written off as a last resort. The council is still collecting some council tax debts that are greater than 6 years old or will have secured the debts against properties where possible.

4. PROVISION FOR BAD AND DOUBTFUL DEBTS

- 4.1 Provision has been made available for writing off bad and doubtful debts held within the ASH and Housing benefits systems. These provisions are £2.83m for ASH miscellaneous debt and £6.29m for debt held in the Housing Benefits system, making a total General Fund provision for bad and doubtful debts of £9.12m. Clearly, every attempt is made to collect debts before write-off is considered. The current level of provision is analysed in the table below.
- 4.3 The Council adheres to the requirements of the SORP when calculating its provisions. Merton's methodology is to provide on the basis of expected non collection using the collection rates for individual departmental debt, and the age of the debt.

1 PURPOSE OF REPORT AND EXECUTIVE SUMMARY

- 1.1. Earlier work on refining the Council's technical establishment was reported to the committee on 1 July 2015, 5 November 2015 and 23 February 2016.
- 1.2. This report provides data as at year end 2015/16 with data as at 31 March 2016. It is intended to provide a quarterly update to committee in future, tied to the financial quarters of 30 June, 30 September, 31 December and 31 March.

2 DETAILS

- 2.1. Appendix 12A shows the position as at 31 March 2016. The format of the appendix has been revised to make it easier to read and interpret, and in particular the data now clearly shows vacancies not filled by direct employees, and vacancies not filled by either a direct employee or an agency worker/consultant. The size of establishment is measured in terms of authorised FTEs, rather than numbers of posts, and therefore the appendix totals FTEs for budgeted posts, employees, agency workers and vacancies.
- 2.2. Further work has been undertaken to ensure the accuracy of the data including close liaison with Heads of Service to review the detailed establishment for their areas. In addition requests for changes of data have been checked to ensure they followed correct change control procedures. Details of change control procedures were included in earlier reports.
- 2.3. The establishment can vary for a number of reasons, including planned budget changes, TUPE transfers in and out of groups of employees, and inverse adjustments due to reorganisations.
- 2.4. Apprentice data has been excluded as they are at present centrally funded on a case by case basis and do not form part of the formal establishment.

- 2.5. Arrangements are being made to report the base data behind these statistics to DMTs on a monthly basis so that they are up to date on the current establishment and vacancy position, and have the opportunity to address any errors or corrections. It is then intended to provide a quarterly update to committee in future, tied to the financial quarters of 30 June, 30 September, 31 December and 31 March.
- 2.6. HR provides information to Standards and General Purposes Committee on agency and interim usage.
- 2.7. HR has strategies in place to address recruitment to hard to fill roles, reduce dependency on agency staff. There will be situations where certain specialist roles can only be covered by agency, and shorter term usage of agency to cover vacancies during periods of planned organisational change.

3 ALTERNATIVE OPTIONS

3.1. Without accurate establishment data, the Authority cannot appropriately plan for the future service or workforce needs. There is also a need to be able to report on unfilled substantive posts, and to monitor and control the use of agency workers to cover unfilled vacancies.

4 CONSULTATION UNDERTAKEN OR PROPOSED

4.1. Merton Improvement Board is kept up to date on work to refine the technical establishment and ensure robust establishment controls remain in place.

5 TIMETABLE

5.1. It is proposed to provide a quarterly update to this committee, based on data as at 31st March, 30th June, 30th September and 31st December each year. Heads of Service will receive a monthly update of establishment details in their area so that they can address any corrections required.

6 FINANCIAL, RESOURCE AND PROPERTY IMPLICATIONS

- 6.1. Employees account for 25% of the gross General Fund spend in the authority. Having an accurate establishment helps managers plan their service and financial implications.
- 6.2. As a result of the earlier technical establishment exercise and ongoing establishment controls, each post will be linked to appropriate budgetary provision.

7 LEGAL AND STATUTORY IMPLICATIONS

7.1. There are no specific legal implications arising from this report.

8 HUMAN RIGHTS, EQUALITIES AND COMMUNITY COHESION IMPLICATIONS

8.1. There are no specific human rights, equalities or community cohesion implications arising from this report.

9 CRIME AND DISORDER IMPLICATIONS

9.1. There are no crime disorder implications arising from this report.

- 10 RISK MANAGEMENT AND HEALTH AND SAFETY IMPLICATIONS
- 10.1. There are no specific risk or health and safety issues arising from this report.
- 11 APPENDICES THE FOLLOWING DOCUMENTS ARE TO BE PUBLISHED WITH THIS REPORT AND FORM PART OF THE REPORT
 - Appendix A establishment analysis including FTE agency workers and vacancies as at 31 March 2016
