**Recommendations:**

- A. Members of the panel discuss and comment on the actions proposed in response to the Sustainable Communities Overview and Scrutiny Panel review of Care Leavers Accommodation and recommendations made.
- 

**1 PURPOSE OF REPORT AND EXECUTIVE SUMMARY**

- 1.1 The report provides members of the panel with an update on work underway and actions proposed in relation to the accommodation of care leavers, following on from the Sustainable Communities Overview and Scrutiny Panel report and recommendations made to Cabinet on 16 October 2017.

**2 DETAILS**

- 2.1 The Sustainable Communities Overview and Scrutiny Panel made recommendations to Cabinet on aspects to explore in order to further improve the Council's support for care leavers in gaining suitable independent accommodation upon leaving care.
- 2.2 The report made nine recommendations, responsibility for which is shared between Children, Schools and Families and Community and Housing departments. Officers have worked together to develop an action plan to further explore, or address the recommendations made. This report provides context and an update on work already underway across the Council in relation to the Scrutiny Panel recommendations, then presents the proposed action plan, attached as Appendix 1, key aspects of which are summarised within this report.
- 2.3 **Social Work Act 2017** – This act introduces a few changes that relate to looked after children and the support they receive when they become care leavers. The main implications of this as far as the scrutiny recommendations are concerned are that:

- There is a requirement to Keep In Touch and provide advice to care leavers until the age of 25. This will require a review of how services are provided. London Councils and a number of Local Authorities are lobbying for extra funding to support this increased provision, however, it is unlikely that sufficient funding will be provided to meet anticipated increases in service provision. A more detailed cost analysis will be required once the extent of any government funding is known.
  - Benefit cap changes are being introduced, but the detail and implications of this are as yet still unknown and a further update can be provided once details of this have been confirmed. There is currently no timeframe for when this information will be available.
- 2.4 **Unaccompanied Asylum Seekers (UASCs)** – The number of UASCs is relatively low, with only around 20 to 25 in the Council’s care at any one time. In addition to this there are around 60 UASCs as care leavers. Whilst a few of these remain in contact with the Council and receive some support, advice or services, the majority loose contact and revert to their own networks. There is very limited funding provided by the government to support these young people.
- 2.5 **Staying Put** –This was flagged as a recommendation within the recent Ofsted inspection and actions have been implemented to address this, although with the small numbers impacted there is always going to be fluctuation in the numbers at any given point in time. At the end of November 2017, these services were being provided to 5 young people (this is an increase from 2 at the time of the Ofsted inspection). It is recognised that increasing the number of young people staying put places extra demand on existing foster care provision and therefore increases the importance of continuing to recruit new foster carers.
- 2.6 **HMO Provision** – The Council has recently established provision of an HMO for five care leavers as a pilot, with a view to extending this type of provision in the future as a more cost effective method of providing affordable accommodation and support to care leavers as they work towards fully independent accommodation in the future.
- 2.7 **Related Strategies** – Work is underway to refresh the Sufficiency Statement, Looked After Children Strategy and the Care Leavers Strategy each of which expires during 2018. The Sufficiency Statement is being considered by Corporate Parenting Board this month and the other strategies will be presented to the Corporate Parenting Board in July 2018 for approval. These strategies will take forward many of the recommendations made by the Scrutiny Panel, along with other priorities for ensuring the continued high quality provision of services to this group of young people.
- 2.8 **Scrutiny Panel Recommendations**
- 2.9 The report of October 2017 identified two groups of recommendations as summarised below.
- 2.10 **Growing demand for independent / semi-independent accommodation** – work is underway on several aspects of this, with further work planned in relation to:
- **Peer mentors and lead tenants** – further work is proposed to understand more about how Kensington & Chelsea and other councils have supported such models. This will include gaining an understanding of the provision of officer time, how the work of mentors and lead tenants is recognised and other resourcing commitments required in order to successfully implement similar models.
  - **Accommodation provision** – working together with Community and Housing, Children, School and Families department is exploring the current demand for and supply of housing options to ensure that suitable properties are available to meet predicted demand. There is currently provision of around 20 Y-Cube units per year,

which is believed to be broadly sufficient to meet the existing need pending full analysis of the data.

2.11 **Developing skills and knowledge for independent living** – this remains a major focus of activity and the scrutiny panel's recommendations are welcomed to further support and focus this activity. This will principally focus on:

- **Achieving better engagement** – whilst engagement with young people in care is good, there is always room for improvement and a review is proposed to determine what else can be done to maintain or build upon the relationship with these young people in order to further support them as they leave care and move into accommodation.
- **SMART Choices scheme** – since its establishment, this scheme has helped to support 12 to 20 young people in care each year in their knowledge and use of English prior to them leaving care. The scheme providers, whilst maintaining their focus on ESOL, will be asked to incorporate aspects in the programme to help these young people with financial planning and the responsibilities of taking on a tenancy.
- **Saving schemes** – young people in care are already encouraged to save through a number of activities. The Children in Care Council will be engaged in reviewing this work and considering new opportunities such as independent living workshops will be investigated to help care leavers in developing the skills required to fund their accommodation needs and live independently once they leave care.

2.12 **Barriers to success**

2.13 The action plan sets out a number of proposals that are possible within the resources currently available. There needs to be lobbying by London Councils and local authorities to ensure that funding is made available to support the activities identified.

2.14 As previously stated, proposed changes to the benefit cap may have a detrimental effect on delivery of the action plan. The impact of these changes will be monitored and used to inform a future report on delivery of the action plan and development of the Care Leavers Strategy.

### 3. **FINANCIAL, RESOURCE AND PROPERTY IMPLICATIONS**

3.1 The financial implications from the actions contained within this report have yet to be fully costed and further information is required on what funding will be provided by the government in order to offset the costs of the new responsibilities in relation to providing support to care leavers until the age of 25.

### 4. **LEGAL AND STATUTORY IMPLICATIONS**

4.1 No specific implications from this report.

### 5. **HUMAN RIGHTS, EQUALITIES AND COMMUNITY COHESION IMPLICATIONS**

5.1 No specific implications from this report

### 6. **CRIME AND DISORDER IMPLICATIONS**

6.1 No specific implications from this report.

### 7. **RISK MANAGEMENT AND HEALTH AND SAFETY IMPLICATIONS**

7.1 No specific implications from this report.
