Women is major gap

Likely driven by screening

Covid risk

Graph showing numbers of patients treated from Q1 to Q3, comparing 2019/20 to 2020/21

2,400

Please note:

'Missing' 1st treatments

There are shortfalls in the number of people starting treatment for some tumour types compared to before the pandemic, this represents a clinical risk that people are not having cancer diagnosed and starting treatment.

31% less people are starting treatment for Breast cancer in M&W: Potentially explainable by the screening programme backlog, need to remind people to attend screening appointments and to get symptoms checked.

8% less people starting treatment for Prostate/Bladder cancer in Merton and 22% less in Wandsworth. 6% and 49% less for Lung Merton and Wandsworth respectively: Potentially driven by people overlooking symptoms for these cancers, an aversion or hesitancy to approach primary care, or confusion with covid symptoms (Lung).

PROSTATE & BLADDER				
	2019-20	20-21	Difference#	Difference%

Urological cancer and the pandemic

Urological cancer first treatments in SWL year
on year comparison

There were 300+ fewer patients starting treatment for Urological cancers in 20/21 across SWL (compared to the same period the previous year)

Possible explanations

- Remote triage - Reduction in urine dips
- Women repeated treated for UTI without dip/referral for cystoscopy
- Reduced opportunity for opportunistic PSAs
- Reduction in patients presenting for annual PSA tests on 'watch and wait'

Lung Cancer catch up

- Significant reduction in cancer diagnosis
- Worse in Wandsworth
- Emphasise message
 - Persistent cough
 - Blood in sputum
 - Unexplained weight loss
 - Long term smoker

Communications

Cough, breathlessness not going away? Sore chest? Losing weight and your appetite?

If you have a new or changed cough for more than a few weeks and you're worried about lung cancer, contact your GP for help.

NHS

JUST SPEAK TO YOUR GP

Dear as cancer help us help you

We have run **patient and public communications and social media campaigns** during Covid to **restore public confidence and encourage people** to continue to access Cancer Services with cancer symptoms to visit their GP.

NHS

JUST SPEAK TO YOUR GP

Dear as cancer help us help you

In Dec 20-Jan 21, we ran cancer symptom awareness and breast awareness campaigns on radio, social media and "out of home" platforms. In May-June 21, further targeted campaigns have run on breast, lung, skin, prostate cancer and general cancer symptoms.

NHS

JUST CONTACT YOUR GP PRACTICE

Worried about cancer?

Don't delay getting checked, speak to your GP
Help Us Help You

NHS

Worried about breast cancer?

We are now broadening our approach to engaging with patients and the public within our local communities and working with community and voluntary sector leaders to further embed cancer awareness messages to support recovery.

Cervical Screening Richmond

Actions to support

- Cancer Screening Services- have onboarded a service called 'Community Links' which provides multilingual support for patients who's first language is not English
- In addition to the general cancer communications, specific interventions are being developed to help tackle the inequalities that have been compounded by Covid. These include targeting 'rising' 60's, learning disabled, LGBTQ and extended access across the SWL Boroughs to support increase Cancer Screening uptake

Actions to support

Lung

PUBLIC FACING

“Do it for yourself” public facing campaign – working with MSD pharmaceuticals to roll out on bill board, pharmacy bags etc in most deprived areas of SWL

PRIMARY CARE FACING

Case finding project in Wandsworth – asking Practices of greatest deprivation to complete search of patients with recurrent lower respiratory tract infections. Practices are incentivised to undertake search, contact patient, request chest x-ray and have clinical review. Results expected early November to measure impact.

Help Us to help You
social media campaign
locally linking in with
national campaign

Actions to support. contd

Prostate & Bladder

- Comms sent out to primary care teams on restarting PSA monitoring for patient at high risk of prostate cancer, and the importance of performing urine dip to check for blood where appropriate (linking with NWL RMP case finding work), including how to minimise impact from recent blood bottle shortage.
- Links in with public facing engagement work (as below)

Breast

- RMP have worked with the breast screening Hub and South West London Breast Screening Service (SWLBSS) to commission a multi-lingual service to call those patients who have not responded to their Open Invitation.
- SWL ICS and RMP are working closely with NHS England cancer screening commissioners and the SWLBSS service to ensure sufficient capacity to recover the service by July 2022. A further recovery action plan is being agreed.

Local community engagement messages

Event	Borough	Public	Location	Team		Date	Time	Requirement

North Merton PCN PCN event	Merton	Public			Satnam Bains	06-Nov-21	14:00-18:00	
WCEN women from black and ethnic minority community event	Wandsworth	Public	Mushkil Aasaan		Anissa Daud	Sept and Jan (2 events)		Looking for femal HCP from South Asian (Sep) and Somali (Jan) background to talk about Breast cancer

Engagement Strategy

Discuss cancer priorities with patient groups, partner organisations or community teams

Identify specific public events or networks that overlap with the cancer priorities

Take cancer warning signs and risk factors to specific public audiences

North Merton Cancer awareness day

- 6th November

Key Drivers on Missing 1st Treatments for all Tumour Groups

- PCN/Practice visits by Place (borough) cancer leads – excellent uptake of these
- RedWhale Primary Care education events recently commissioned and ensuring missing first treatment targeting is included in the training package (starts Nov 2021 tbc)
- Provision and roll out of non-site specific RDCs across SWL – St Georges Trust now accepting referrals to all SWL boroughs, Epsom and St Helier site also just opened, Kingston and Croydon in development, Wandsworth also have coverage from C&W ADOC. SWL webinar to Primary Care (planned October 2021) along with further comms to Primary Care teams highlighting the benefit of these clinics, so able to act on investigating vague symptoms suggestive of cancer, and highlight missing first treatment work.
- Promoting Business As Usual activity – covid effect, and more recently impact of blood bottle shortage. Linking with NHSE guidance, discussed with Place cancer clinical leads and SWL/RMP cancer team, comms to Practices on importance of continuing blood testing where suspicion of cancer, which may facilitate diagnosis. Development of local toolkit on how virtual consults can be utilised to improve cancer diagnosis, and round table event being organised to determine best practice (primary, secondary care and patient representation)
- Linking into other pathway groups, and CCG partners – such as recent presentations to Wandsworth Health and Care Board and Richmond Health Board. Promoting collaborative across pathways; to pick up cancers when not referred via a 2WR pathway.

Primary Care Networks

- Primary care networks (PCNs) form a key building block to the [NHS long-term plan](#)
- 30–50,000 patients- Groups of GP practices
- Deliver key strategies for NHSE

PCN- Early Cancer PCN DES

- NHS Long term Plan- 2028 75% of cancer diagnosis at stage 1 or 2 (currently 50%)
 - Increased 5 year survival, quality of life and treatment options
- Cross organisational work
 - RM Partners Cancer Alliance, SWL CCG, Macmillan, PCN, GP Federation

Cancer DES Requirements

1. Review referral practice for suspected cancers, including recurrent cancers.
2. Contribute to improving local uptake of National Cancer Screening Programmes.
3. Establish a community of practice between practice-level clinical staff to support delivery of the requirements of the Network Contract DES Specification.
