

CABINET

Date: 22 September 2022

Subject: Financial Report 2022/23 – Period 4 July 2022

Lead officer: Roger Kershaw

Lead member: Councillor Billy Christie

Recommendations:

- A. That Cabinet note the financial reporting data for month 4, July 2022, relating to revenue budgetary control, showing a forecast net adverse variance at 31 July on service expenditure of £5.448m when corporate and funding items are included and £3.412m of reserves assumed to be used as agreed at the Cabinet meeting on the 18 July.
- B. That CMT note the contents of Section 5 and approve the adjustments to the Capital Programme contained in Appendix 5b
That Cabinet note the contents of Section 5 and Appendix 5b of the report and approve the adjustments to the Capital Programme in the Table below:

		Budget 2022-23	Budget 2023-24	Budget 2024-25	Narrative
		£	£	£	
Corporate Services					
Customer Contact - Fix My Streets	(1)	50,000			Priority project from IT Implementation List
Business Systems - Parking System	(1)		95,110		Funded by the OCPB Reserve
Children, Schools and Families					
Joseph Hood - Schools Capital Maintenance	(1)	(66,120)	66,120		Reprofiled in line with projected spend
Dundonald - Schools Capital Maintenance	(1)	(12,000)			Reprofiled in line with projected spend
Raynes Park - Schools Capital Maintenance	(1)	12,000			Reprofiled in line with projected spend
Perseid Lower School - School Expansion	(1)	100,000	1,500,000	2,516,860	Splitting Perseid Lower Expansion from Perseid Upper
Perseid School - School Expansion	(1)	(100,000)	(1,500,000)	(2,516,860)	Splitting Perseid Lower Expansion from Perseid Upper
Mainstream SEN (ARP) - West Wimbledon ARP	(1)	40,000	(40,000)		Reprofiled in line with projected spend
Environment and Regeneration					
On Street Parking - P&D - Pay and Display Machines	(1)	(200,000)			As Emissions based Charging is not being progressed unspent budget being vired back to Car Park Upgrades
Off Street Parking - P&D - Car Park Upgrades	(1)	260,000			Virement of projected unspent budget back to Car Park Upgrades from Pay and Display Machine Upgrade
Off Street Parking - P&D - Peel House Car Park*	(2)	700,000			Funding Required to undertake structural works
Off Street Parking - P&D - Pay and Display Machines	(1)			(60,000)	Reprofiled in line with projected spend pattern and vired to Car Park Upgrades
Highways and Footways - Bishopsford Bridge	(1)	35,000			Virement from Cycleway schme to fund projected outturn on the scheme
Highways and Footways - Cycle Lane Roadway Bishopsford Bridge	(1)	(47,000)			Virement to main Bishopsford Bridge Scheme and relinquish projected underspend
Mitcham Area Regeneration - Pollards Hill Bus Shelter	(1)	(100,000)	100,000		Reprofiled in line with projected spend
Morden Area Regeneration - Morden Town centre Imp	(1)	(200,000)	200,000		Reprofiled in line with projected spend
Parks - New water play feature wimb pk	(1)	(226,000)	226,000		Reprofiled in line with projected spend
Parks - Multi Use Sports Areas	(1)	175,000		(175,000)	Reprofiled in line with projected spend
Parks - Figges Marsh Ward Allocation - Figges Marsh	(1)	10,020			Table Tennis Table funded by NCIL
Parks - Graveney Ward Allocation - Edenvale Rec	(1)	10,020			Table Tennis Table funded by NCIL
Parks - Lavender Fields Ward Alloc - Lavender Park	(1)	10,020			Table Tennis Table funded by NCIL
Parks - Longthornton Ward Alloc - Long Bolstead Rec	(1)	10,020			Table Tennis Table funded by NCIL
Parks - Colliers Wood Rec Playground	(1)	2,190			Additional NCIL Funding
Total		463,150	647,230	(235,000)	

* Requires Council Approval

- C. That Cabinet ask CMT to investigate and report back on measures to reduce the adverse variance.

1. PURPOSE OF REPORT AND EXECUTIVE SUMMARY

1.1 This is the Period 3 monitoring report for 2022/23 presented in line with the financial reporting timetable.

This financial monitoring report provides -

- 1.1.1 A full year forecast projection as at period 3.
- 1.1.2 An update on the financial impact of Covid-19
- 1.1.3 An update on the capital programme and detailed monitoring information;
- 1.1.4 An update on Corporate Items in the budget 2022/23;
- 1.1.5 Progress on the delivery of the 2022/23 revenue savings

2. THE FINANCIAL REPORTING PROCESS

- 2.1 The Council's services are still under pressure due to the need to support businesses and residents, particularly vulnerable groups in need of social care and there has been a major reduction in the Council's income which is expected to continue for some time. The detrimental impact of Covid-19 continues to be monitored closely given its impact on service delivery. Inflationary pressure in the supply of goods and services to the Council, energy costs, cost of borrowing and potential wage increases against budget add to the Council's financial challenges in 2022/23 and future years.
- 2.2 There are also significant pressures on the Dedicated Schools Grant (DSG) which are being monitored. The cumulative deficit at the end of 2021/22 was £26.930m and the deficit is forecast to continue to increase to £34.39m by the end of 2022/23 after the second tranche of Safety Valve funding. The Safety Valve programme is starting to have a positive impact, but progress is currently behind the agreed target.
- 2.3 Chief Officers, together with budget managers with support from Service Financial Advisers are responsible for keeping budgets under scrutiny and ensuring that expenditure within areas which are above budget is being actively and vigorously controlled and where budgets have favourable variances, these are retained until year end. Any final overall adverse variance on the General Fund will result in a call on balances.

3. 2022/23 FORECAST OUTTURN BASED UPON LATEST AVAILABLE DATA

Executive summary – At period 4 (to 31 July 2022), the year-end forecast is a net adverse variance of £8.253m on Net Service Expenditure; a favourable variance of £2.428m on Corporate Provisions; and a small adverse variance of £0.052m relating to Covid-19. A summary is provided on the following details and more detailed analysis by Department is set out in Section 4 of the report.

Summary Position as at 31st July 2022

	Current Budget 2022/23 £000s	Year to Date Budget (July) £000s	Year to Date Actual (July) £000s	Full Year Forecast (July) £000s	Forecast Variance at year end (July) £000s	Forecast Variance at year end (June) £000s	Outturn Variance 2021/22 £000s

The current level of GF balances is £14.0m and the minimum level reported to Council for this is £14.0m.

Covid-19 Financial Impact

The ongoing situation continues to make forecasting difficult as it is unclear if or when some service areas will see activity return to pre-Covid levels.

Covid Expenditure

Covid expenditure which is incremental is reported centrally on Corporate Items – Covid Costs. These are the incremental costs not covered by specific Covid grants.

Income shortfall

Income budgets are included within departments so the impact of Covid-19 on lost income is reflected in departmental forecasts.

Savings unachieved

Departmental budgets are adjusted for the agreed savings targets for 2022/23 as part of the budget setting process. The savings which are now under pressure due to inflation and other factors are included in the forecast of the departments. This is inclusive of 2021/22 savings which are still under pressure where they have not been adjusted for. Further details are set out in Appendix 6.

Cashflow

The Covid-19 outbreak created pressure on the council's cash-flow, but the position has stabilised since the middle of 2021. Through prudent treasury cash flow management, the Council continues to meet any additional expenditure from its cash in balances in the bank and primarily from liquid cash balances held in Money Market Funds (MMFs).

From Summer 2021, with the stability and the confidence seen in the UK economy the fixed deposit rates started to go up and as a result the Council started to return to medium term fixed deposit to earn interest income from any short-term excess cash balances.

Since December 2021, the Bank of England has steadily increased the base rate from 0.10% to 1.25% in June 2022. Further increases are expected given the current forecasts for inflation and the Bank's overarching brief to bring inflation down to 2.0% over the medium-term. As a result of this policy the Council can expect to receive additional interest income on deposits, although much of this additional income has already been expected in the 2022/23 budget.

The Council still has a strong position on its liquidity and where the opportunity arises places excess cash in short-term deposits to generate income.

Cash flow is monitored daily, and the current forecast shows the Council has sufficient funds to meet its payment needs going forward over the medium term, but there still is a concern over the longer term in the context of the DSG deficit, subject to the use of Safety Valve funding. However, if a cash shortfall occurs, the Council has the option to borrow from the market to meet its needs.

4. DEPARTMENTAL SUMMARY OF CURRENT POSITION

Corporate Services

Division	Current Budget	Full year Forecast (July)	Full Year Forecast Variance (July)	Full Year Forecast Variance (June)	Outturn Variance 2021/22
	£000	£000	£000	£000	£000

Corporate Other	764	532	(232)	216	388
Total (Controllable)	30,090	31,354	1,144	1,616	645

Overview

The department is currently forecasting an adverse variance of £1,264k at year end. This has moved favourable by £351k since period 3.

Customers, Policy and Improvement - £415k adverse variance

The variance has moved favourable by £24k since period 3. The movements are primarily due to a £10k favourable movement on agency spend within Merton Link and £13 increase in projected income on Translation services.

Adverse variances within the division include £424k within the Marketing and Communications team due to staffing, £141k within Press and Publications owing to use of agency staffing and unachievable income targets. Policy and strategy are also reporting a £52 overspend within its staffing budget lines, this will be funded by the underspend in Programme Office. There is also a net adverse variance of £20k in the Translations services due to under-achievement against the income budget as external demand remains low and £39k within Customer Contact.

These adverse variances are partly offset by favourable variances within the AD and Programme Office budgets of (£129k) and (£77k) respectively due to vacancies. A £51k budget of a vacant post within Programme Office will be used to fund a post in Policy and Strategy. The Voluntary Sector Coordination budget also has a favourable variance of (£44k) on grants expenditure.

Additional favourable variances include (£26k) due to an over-achievement against the cash collection saving, (£15k) in the Community Engagement team and (£15k) in the Complaints team due to staffing underspends and various running costs less than budget.

Infrastructure & Technology - £326k adverse variance

The adverse variance has moved favourable by £69k since period 3. This is primarily due to use of agency staff within IT Service delivery £45k and increase in IT applications (£28k)

Many of the adverse variances within the division are due to reduced recharges as a result of the change in working arrangements surrounding the covid-19 pandemic. These adverse variances include £193k on the Corporate Print Strategy and £118k on the PDC (Chaucer Centre). These are reviewed throughout the year and adjusted depending on the level of staff returning to the office.

The FM External account is also forecasting a £120k adverse variance due to the lack of commissions since the pandemic began, though the forecast is significantly improved on the outturn position for 2021/22. There is a variance on Corporate Contracts (£41k adverse) due to 2020/21 savings for reducing cleaning in corporate buildings remaining unachievable within the current circumstances. A further £52k adverse variance is within the Client Financial Affairs team, mainly relating to the unachieved saving (reference 2019-20 CS23) relating to the introduction of a charging scheme and agency cover for maternity leave.

IT Service Delivery is also forecasting an adverse variance of £25k owing to the use of agency staff and £35k on security services.

There are also multiple favourable variances within the division, such as on the Microsoft EA (Enterprise Agreement) which is forecast less than budgeted by £127k, £28k in Safety Services due to recruitment lag as well as contingency not expected to be required in year. A lag in recruitment has also resulted in a £31k favourable variance within Facilities. Within the Transactional services is a £25k staffing underspend due to a part vacant post. Additional favourable variances include £20k within Commercial Services as Kara Chacksfield acting up to Cat Man vacant post to year end.

Postal Services £91k forecast underspend relates to income forecast from postal recharges. This offsets the forecast overspends on Printing and Photocopying where income targets are not expected to be achieved.

Corporate Governance – £6k favourable variance

The adverse variance has moved favourable by £34k since period 3.

The service is projecting underspend in the Information Team (£22k) due to a lag in the recruitment, (£10k) underspend in Democracy Services due to a 2 month lag in the recruitment of Democratic Services officer post and (£24k) underspend in members allowances.

The LBM Legal services is projecting a £15k favourable variance owing to the increase in income resulting from an increase in service provision.

SLLP (South London Legal Partnership) SLLP is currently forecasting £292k deficit overall, £54k is forecast to be LBM's Share. The variance in SLLP is largely due to a reduction in income projection from chargeable hours. In the last three months, the service has done less chargeable work for the boroughs and has been prudent in their forecast. This will be reviewed and updated to reflect any changes in chargeable work.

Resources - £484k adverse variance

Within Resources there are multiple budgets forecasting adverse variances due to Covid-19. Resulting from Covid is an adverse variance forecast in the Bailiffs service of £201k (inclusive of the shared service element) as a result of unachieved income which will be monitored as the circumstances around the pandemic improve and the service is able to operate more fully. The Local Taxation Service has a £238k adverse variance due to anticipated under recovery on the court fees and projected increase in staffing costs.

A further adverse variance of £131k within AD resources due to consultancy costs for e5 upgrade and £108k within the budget management team due to a principal accountant for C&H finance team and 50% of Head of Finance's maternity cover and use of agency cover for existing vacancies.

Adverse variance of £55k is forecast on insurance premiums and £54k on pensions. Even though six schools moved out of the council cover, the insurance premium did not change significantly. The service is currently working on the open claims and are planning to reduce the annual insurance provision to the insurance fund to mitigate the overspend on the insurance premium. They are also doing detailed work on the properties and there is a possibility that a few of the properties can be

removed from the insurance cover for next year and this will help to reduce the insurance premium from 2022/23.

The Financial Systems Team is forecasting a £16k adverse variance owing to salary budget pressure as well as revenue costs for upgrading the financial system planned for later this year.

Within the Benefits Administration services is a £189k favourable variance is largely due to grant receipts from DWP.

Favourable variances within Resources include £24k on the Chief Executive budget due to consultants and subscription budgets not required in year. The Support team within Revenues and Benefits has £19k favourable variances mainly against staffing costs and further £67k on business rates.

Human Resources – £158k adverse variance

This adverse variance is primarily due to agency cover in place against the AD budget (£114k variance), HR Business partnerships (£12k) and staff side budget resulting from maternity leave (£8k).

Additionally, there is an adverse variance of (£30k) relating to the HR Transactions budget for the shared payroll system and iTrent client team charges from Kingston.

Corporate Items - £232k favourable variance

This is primarily due to (£332k) underspend in in redundancy payments. In addition to this, Coroners Courts received a (£273k) reimbursement from the Westminster Bridge Inquest resulting in a £264k projected underspend. Within this division is a £166k projected underspend on corporate funded items.

The above favourable variances are partly offset by an adverse variance in Housing Benefits Rent allowance subsidies of £535 and £76k spend on consultants.

Environment & Regeneration

Division	Current Budget	Full year Forecast (July)	Full Year Forecast Variance (July)	Full Year Forecast Variance (June)	Outturn Variance 2021/22

Total for Sustainable Communities	8,750	486	529	(675)
Total Excluding Overheads	11,930	4,792	5,348	3,431

Overview

The department is currently forecasting an adverse variance of £4,792k at year end. The main areas of variance are Regulatory Services, Parking Services, Waste, Leisure & Culture, Greenspaces, Property Management, Development & Building Control and Future Merton.

Public Protection

Regulatory Services adverse variance of £199k

The section has cumulative income savings of £135k relating to potential commercial opportunities. Since the pandemic, the focus has been redirected from income generation to Covid-19 service delivery and service improvement including a major IT project. The IT transition Project is scheduled for completion in the second quarter of 22/23 which will then allow some resources to refocus on income generation.

Although the service has seen an increasing in licensing income from alcohol licencing, temporary notices and massage/special treatment licences, the service is still forecasting an income shortfall of £112k. Current forecasts estimate an adverse variance against the trading standards income budget

of £95k, environmental health-pollution £56k and health & safety £41k.

The service is also anticipating a £14k overspend on electricity due to increase in rates.

The above adverse variances are partly offset by a £112k anticipated underspend within the partnership (RSP)

Parking Services adverse variance of £3,002k

This adverse variance improved by £596k since June. This is primarily to an improvement in yield rates of PCNs issued by CEOs resulting from the introduction of Band A penalties. Additionally, there has been the increase in the number of PCNs issued by CEOs for parking contraventions, running at about 1,000 more PCNs per month above original expectations. This is primarily the result of the pilot project to hire additional temporary CEOs above establishment. Another contributory factor is improved line management of CEO productivity.

Changes in travel patterns following Covid-19 continues to affect parking revenue across the board including PCN issuance, as well as on- and off-street income. Analysis to better understand the short and longer-term impact of this is ongoing, but the end of July forecasts shows adverse variances on PCN, P&D, and permit income of £810m, £739k, and £1.174m, respectively. This is primarily due to a reduction in expected income from across the various categories.

Other adverse variances within the service include staffing £200k, owing to the recruitment of additional CEOs and the use of agency staff, skip licences £103k, supplies and services £141k; and premises £79k. These adverse variances are being partially offset by a favourable variance on parking admin fee of £257k.

The Peel House car park remains closed. Works are being procured with the aim of re-opening the ground floor parking before September. The costs of these will be partially mitigated by the income generated from reopening the car park this financial year but will cover them over a four year period.

It should be noted that the section has a £3,800k budget expectation relating to a review of parking charges which were implemented on the 14th of January 2020. The new charges were designed to influence motorists' behaviour and reduce the use of private vehicles. The extent to which behaviour has been affected has been masked by the impact of Covid-19, but work continues to try and better understand this. A recent review of the budget expectation has indicated there may be a shortfall of £1,800k p.a.

Public Space

Waste Services adverse variance of £324k

The adverse variance has increased by £112k since period 3. This is owing to the continued use of agency staff in filling existing vacancies.

An adverse variance of £153k is also being forecast in relation to the Household, Reuse, Recycling Centre (HRRC), mainly as a result of extending the current contract during 2020/21, via a contract variation, to both minimise future costs and to align the contract period with the other SLWP boroughs. The service is currently exploring alternative access for residents to neighbouring sites along with implementing improvements to the current booking system which has contributed to the

management of waste volumes. To date there are no planned service changes, and we note that any significant change to the provision of this service will first be presented to Cabinet for consideration. There is an additional variance of £140k being forecast against the SLWP management fee.

These adverse variances are partly offset by favourable variance on disposal costs of (£122k). The current forecast is at par with last year's actuals and is despite changes to our residents' working arrangements, where we have seen a greater increase in the number of households now working from home post pandemic resulted in an increase in overall domestic waste across all kerbside collection services. This section will continue to be closely monitored and the service is currently supporting SLWP in the planning of the re-procurement of both Food and Garden waste processing services which currently expire this financial year.

Other favourable variances include (£106k) on the Council's Environmental Enforcement services in respect of enforcing and issuing Fix Penalty Notices for littering, (£96k) on employee related spend and (£35k) on supplies and service.

Included in this section are savings target of £104k (ENV2022-23 01) for disposal processing savings (Food Waste Recyclate). The service is projecting to deliver these savings.

Leisure & Culture adverse variance of £426k

Due to the unprecedented increase in energy bills, the service is currently forecasting to spend double its leisure centre utilities budget resulting in a variance of £434k. Possible under recovery in leisure centre income of £97k, depending on the outcome of talks. Potential under recovery lettings income of £25k as we currently have one tenant in Morden Assembly Hall.

These adverse variances are partly offset by the following favourable variances on employees (£88k) and supplies and services (£10k).

During the pandemic, Merton Council issued a loan of £575k to GLL to help it keep afloat. The loan was repaid in full in June however, GLL are now requesting a 25% reduction in guaranteed income so that they can fully recover from the pandemic. This is currently under negotiation. In addition, as a company they are facing hugely increased energy bills across board.

Greenspaces adverse variance of £176k

Although the service is starting to recover post Covid, the service is projecting income under recovery of £183k; includes £144k under recovery in Canon Park income, £45k park and display income and £40k parks and recreational grounds rental income. This under recovery in income is partly offset by £110k anticipated over recovery in events income and £31k on parks operations income.

The service is currently projecting £102k overspend on gas and electricity owing to the unprecedented increase in energy prices.

Additional overspends include £54k on staffing due to the use of agency staff for the tree inspector for highways.

The above is partly offset by £157k projected underspend in tree works against a budget of £712k.

Sustainable Communities

Future Merton adverse variance of £315k

The reason for the adverse variances on Highways Maintenance of £220k is mainly due to expected cost of reactive repairs but also some over-spend for 1) Bishopsford Bridge, 2) traffic signals (where TfL charges have increased), and 3) a small under achievement on JCD income (now only approx. £13k below target).

Additional adverse variances include Street Lighting £340k, due to the significant increase in energy costs, under recovery in income from Merantun £100k and £100k on Local Plan Fees.

The above adverse variances are partly offset by anticipated underspends on CPZs (£89k) and staff (£100k); and an over-achievement in income on Temp traffic orders (£120k), , streetworks/permitting (£75k) and CIL income (£60k)

Property Management favourable variance of £125k

The principal reason is a favourable variance on employees of £149k due to an underspend being forecast on salaries against a budget of £320k. There is also a favourable variance relating to exceeding the commercial rental income expectations (£256k) due to rent reviews in line with the tenancy agreements which is being offset by an adverse variance on premises related expenditure of £85k, for example, building improvements, utilities, repairs & maintenance costs and £130k on supplies & services related expenditure, for example, on employment of consultants to progress rent reviews due to lack of internal resource, and valuations to support asset valuations and potential disposals.

Building and Development Control adverse variance of £296k

The adverse variance is primarily due to a £156k under recovery in Building control income and £357k adverse variance on employees. This adverse variance is partly offset by a £139k anticipated over recovery in Development Control income and £92k supplies and services underspend.

The services expect that income will undoubtedly be higher than currently projected but have been prudent in calculating forecasts to avoid being overly optimistic early in the year.

Summary

The department is forecasting an overspend of £1.2m, after including £490k funding from the DfE as part of the Safety Valve agreement for staff, as at period 4 compared £0.95m as at period 3 and £2.4m overspent at year end.

As in period 3, the greatest impact on the forecast since is the continuing dependency on agency social workers, the high cost of social care placements, high levels of general inflation and rising fuel costs. A number of actions are being put in place to try to pull back this forecast overspend, and these are reflected in the forecast. The key actions are:

- a recruitment campaign for social workers building on the recent OFSTED judgement;
- signing up to the London Pledge to try to stem the growth in agency social worker rates;
- all new agency staff requests for Children's Social Care to be agreed at CSC management team meetings;
- working with E&R to try to maximise the use of the bus fleet rather than taxis;
- developing more in-borough special places to reduce out of borough transport;
- a focus on transport in EHCP reviews and a focus on reviewing plans that include transport.

The Dedicated Schools Grant (DSG), which sits outside of the General Fund, is showing a deficit of £10.4m compared to £10.6m in period 3 and £13.5m at year end. The Safety Valve agreement with the DfE anticipates the DSG remaining in deficit in-year until 2024/25.

Child Social Care & Youth Inclusion

The main pressures in Child Social Care & Youth Inclusion budget remain the dependency on and increasing cost of agency social workers and the cost of placements for looked after children. Agency social work rates have been increasing steadily across London. By the end of last year hourly rates had increased by an average of £4ph and due to the restructuring of this division the use of agency social workers increased from 67 to 92. This situation continues to improve gradually and at the end of July the number of agency staff had reduced to 63, compared to 64 last month.

Merton has signed up to the London Pledge which will provide consistency and reduce risk of competitive high-cost agency staff spend. We are in the early days of the arrangements which is in place to ensure collaborative practice across boroughs in London. Future agency requirements will be agreed as CSC&YI management team meetings.

We are continually recruiting to vacant posts and trying to persuade agency social workers to convert to permanent contracts. We will launch a recruitment campaign in the post-holiday period showcasing our offer to the workforce alongside celebrating the successes of Social Care in the borough.

It is difficult to predict recruitment success in such a competitive labour market, but we have eight trainees who will be ready to start case holding in September and who will replace agency social workers. The forecast includes a prudent estimate of the impact reduced use of agency staff.

The cost of residential placements remains a concern. Work continues to review high-cost placements regularly with a view to moving to placements with better outcomes and lower costs.

Education

The Education budget is facing significant pressures in the cost of transport. The number of children with an Education Health & Care Plan (EHCP) which includes home to school transport has been increasing in recent years. The Safety Valve plan aims to reduce the number of plans and is starting to have an impact overall, but the cohort with transport tend to have more complex needs. The plans to increase new in borough places are on track and will reduce transport costs compared to out of borough placements. We have the capital agreed for the new Additionally Resources Provision (ARPs) and have agreed a timescale and process with DfE for a new special school. The refreshed transport policy is being applied to new applications and there will be a focus on transport in reviews from the start of the new term.

COVID has reduced the number of taxi firms in the market, reducing competition. The shortage of drivers and increased fuel costs is pushing up the costs of all forms of transport. This is reflected in the increased from year-end in the forecast overspend from £0.39m to £1.6m. That forecast reflects the expected spike in transport needs in September with the start of the new school year.

Dedicated Schools Grant (DSG) and Safety Valve

In the Schools Bill and the SEND Green Paper, the government has recognised that the current SEND system is broken. The Schools Bill includes provision to try to ensure that mainstream schools are inclusive of those with SEND, and the Green Paper proposes significant changes to the SEND process. A failure in funding keeping pace with demand and costs have combined with policy changes (such as the extension in responsibility to age 25) to leave the majority of authorities in England with rising demand and increasing deficits. Merton in particular has faced a high level of EHCPs and the impact of having a significant amount of expensive independent sector provision in the area.

Merton is already on a path to refresh our SEND offer and ways of working. The Merton programme is congruent with the Green Paper and means that we will be well set to implement the changes that will emerge from it.

Merton was invited to join the second tranche of the Safety Valve programme process in July 2021. The programme is a mechanism for the DfE to provide deficit funding to local authorities in recognition of the significant pressures. The agreement with the DfE in March 2022 commits them to £28.8m deficit funding, of which £11.6m has been paid upfront. The remainder will be paid over five years subject to meeting the agreement conditions. Following submission of the first monitoring report to DfE, the DfE approved the release of the first instalment of the 2022/23 payment of £875k.

As at period 4, the DSG forecast is an overspend of £10.4m compared to £10.6m in period 3 and £13.5m at year end. The agreement with DfE assumes that we will continue to have in year deficits in 2022/23 and 2023/24. The trajectory of the in-year deficit is in the right direction although not yet where the ambitious plan says it should be by year end. However, many of the actions taken in line with the plan will only start to have an impact from September, when schools return, but the current forecast assumes these impacts.

The number of EHCPs has stabilised and although referrals for EHCP assessments are fairly consistent, the proportion accepted for assessment has dropped from 92% in 2021 to 70% in 2022. This tells us that whilst our processes for agreeing to assess are tighter, there is more work to do with partners on appropriate referrals and alternative support, including support ordinarily available in mainstream schools.

A key part of the Merton SEND plan is the expansion of local maintained special school places. The preponderance of expensive independent special school provision is a major factor in our deficit and across southwest London and Surrey. Our capital bid to DfE for the delivery of new places was successful and the first major expansion, the Whatley Avenue annexe to Melrose School, will open in September, keeping pupils local and providing alternatives to expensive independent sector provision.

We have in principle approval from DfE for the delivery of a new special school in borough, which is a key part of the plan. We have met with the DfE and agreed a timetable. We will be submitting the full application by the end of September 2022.

Community and Housing Summary Position

Overview

Community and Housing is currently forecasting an unfavourable position as of July of £847k which is a reduction of £156k since June. Adult Social Care unfavourable was reduced by £106k, Housing by reduced by £73k, Libraries increased by £23k and Merton Adult Learning and Public Health continues to forecast a breakeven position.

Adult Social Care is currently forecasting an unfavourable variance of £618k. The current unfavourable variance to July is after the deduction of £1.5m of savings, £500k earmarked under the DSG (Dedicated Schools Grant) Safety Value Agreement, and the service has also seen on average a 5.9% inflationary request from providers, the majority of which was built into the budget. However, due to the significant increase in demand for packages of care this budget is currently forecasting an overspend.

Community & Housing	2022/23 Current Budget £ 'm	2022/23 Full Year Forecast £ 'm (Jul)	2022/23 Full Year Variance £'m (Jul)	2022/23 Full Year Variance £'m (Jun)	2022/23 Outturn Variance £'m (Mar'22)

Total Favourable/ Unfavourable	66,377	67,224	847	1,003	(699)

Adult Social Care

The department has been forecasting an increase in demand for services which is driven partly due to living with the long-term effects of Covid and partly by an increase in the older people cohort due to age with increase support needs which was alluded to in the December 2021 CMT report. At the time it was impossible to quantify such increase but based on placement activity to June 2022 demand has increased, and that current clients requiring additional support as a result of increased frailty that is a key cause of the financial pressure. However, in consideration of the increase in demand the service is seeking to implement remedial actions to manage its budget pressures.

Placement Analysis of Gross Cost April to July (Impact to 31March 2023)

Description	£'M
New Customers	2.974
Deceased Customers	(1.694)
Customer Ended Services	(0.870)
Customer Varied up Support	1.436
Net Increase in Costs	1.846

The placement forecast is based on Mosaic expenditure data to July 2022 and income based is based on 2021/22 billing data. Income will be updated for the August's report, however an initial piece of work on expected income shows that the service can expect an additional £283k which would reduce the department's current unfavourable variance. There are also 45 new clients yet to be assessed.

In terms of the new customers the largest increase in July as in previous months appeared in long-stay nursing home care which is understandably more expensive than other less intensive forms of care, and this is closely followed by an increase in numbers requiring domiciliary care.

It should also be noted that the Financial Assessment Team had a number of vacancies but despite the scarcity of experienced Financial Assessment officers the team has made two permanent appointments expected to be in post shortly and an apprenticeship option is being explored for a third post

Monthly Movements in Packages of Care April 2022 to July 2022

Month	New Customers	Deceased Customers	Customers No Longer Receiving a Service	Net Movement
April'22	44	-21	-23	0
May'22	53	-21	-49	-17
June'22	51	-12	-15	24
July'22	54	-33	-21	0
Total	202	-87	-108	7
Annual (to date) Average 2022/23	51	-22	-27	2
Annual Average 2021/22	50	-17	-20	13
Annual Average 2020/21	37	-27	-17	-7
Annual Average 2019/21	34	-24	-24	-14
Annual Average 2018/19	36	-23	-25	-11

The above table to July shows that there were 202 new customers, 87 deaths and 108 customers no longer requiring a service of which the latter could be just a temporary suspension.

The sustained growth in out of hospital demand continues and has not returned to the pre-COVID levels as reflected in the forecasted placements expenditure to July 2022. In addition to this growth in demand, the service is facing significant provider inflation costs driven by a 5.9% increase in the minimum wage and high inflation in other costs areas such as food and fuel.

Discharge activity is expected to remain under severe pressure into 2022/23 as general hospital activity is at record levels, compounded by additional recent Covid admissions, together with an ever-growing backlog of elective procedures.

There is a requirement to maintain the Discharge to Assess model into 2022/23 but the funding for this is not yet announced. It is expected to come through the Better Care Fund, but it is not certain that it will be additional funding rather than a demand on existing funds.

The department is also awaiting the announcement of the winter pressure for 2022/23 to meet the expected increase in demand. However, initial information suggests that boroughs are likely to receive 77% of 2021/22 allocation.

Description of Pathways: -

<p>Pathway 0- 50 % of Clients</p> <ul style="list-style-type: none"> • People discharged requiring minimal support, or interventions from health and social care services.
<p>Pathway 1- 45% of clients</p> <ul style="list-style-type: none"> • People who are discharged and able to return home with a new, additional or a restarted package of care.
<p>Pathway 2- 4% of clients</p> <ul style="list-style-type: none"> • People who discharged with a short term intensive support package at a 24 hour bed based setting before returning home.
<p>Pathway 3-1% of clients</p> <ul style="list-style-type: none"> • People who require 24 hours bed based care

Bar Chart depicting comparison of the average discharge activities between April to July 2021/22 and 2022/23

The above graph shows an increase in all the Pathways and an upward trend as compared to 2021/22.

Graph of Placement Forecast from April 2020 to July 2022

The above representation shows a marked increase between March 2022 to April and continues to increase as per the graph above.

Adult Social Care Internal Provision –unfavourable Variance - £10k

Direct Provision is forecasting an overspend which is based on staffing and utilities. The service is dealing with a small number of long - term sickness cases in key areas, and there is also currently a shortage of available bank staff to cover some residential and supported living shifts which has led to staff working overtime to ensure safe staffing levels. There is additional spending in the Merton Employment Team to support the Employment Pilot, and that should be rectified in the next month's forecast. An additional amount of £11k has been added to the forecast to cover anticipated utilities due to that cost-of-living pressures.

Library & Heritage Service- Unfavourable Variance - £31k

This service is forecasting an unfavourable variance of £31k in July 2022, which is an increase of £23k. This is due to an increase in forecast for security costs of £10k to reflect inflation and living wage price increases. Staffing costs have also increased to incorporate increased out of hours care taking for commercial bookings.

Some of these costs are being offset by an improved income outlook and some one-off staffing underspend where some posts were vacant in the short term.

Library & Heritage Services are now back to pre-pandemic levels of usage and a significant amount of work is being undertaken to increase income generation from the use of hireable spaces.

Adult Learning- Breakeven position

Adult Learning continues to forecast a breakeven position. Merton Adult Learning is fully funded by external grants from the GLA (Greater London Authority) and ESFA (Education and Skills Funding Agency).

New funding streams are being allocated to enhance curriculum provision around mathematics (Multiply government initiative) and green skills. The service is in the process of awarding new provider contracts to support with some of this.

Housing General Fund- unfavourable variance - £198k

This service is currently forecasting an unfavourable variance which has reduced to £198k in July. Current unfavourable variance is made up of an underspend on housing related support budget, and an increase in expected Housing Benefit income.

Additionally, the numbers in TA have increased again and is now at 270 increased from 259 which is a 16% (net) increase since April 2022.

The demand for accommodation continues to exceed supply, which creates difficulties in the re-housing of households with acute housing need including those living in expensive temporary accommodation. Thus, the service is finding it extremely difficult to source properties in the Private Sector Housing market.

Housing	Total Budget 2022/23	Forecast Expenditure (Jul'22)	Forecast Variances (Jul'22)	Forecast Variances (Jun'22)	Outturn Variances (March'22)
	£000	£'000	£'000	£'000	£000

Housing Other Budgets	2,880	2,769	(111)	(74)	49
Total Controllable (Favourable)/Unfavourable Variance	3,519	3,717	198	272	77

Analysis of Housing and Temporary Accommodation Expenditure to July 2022

Number of Households in Temporary Accommodation in Previous years

Previous Financial Years (Month' Year)	Annual Numbers at Financial Year End
Mar'17	186
Mar'18	165
Mar'19	174
Mar'20	199
Mar'21	197
Mar'22	230

Total numbers in temporary accommodation (TA) in March 2022 was 230 which is an overall increase of 17% on March 2021. The numbers in (TA) continues to increase since March as demonstrated below.

Current Financial Years (Month' Year)	Numbers In	Numbers Out	Net Movement
Apr'22	18	15	233
May'22	28	7	254
June'22	21	16	259
July'22	19	8	270

The table above shows the total numbers in temporary accommodation (TA) to July 2022. This shows that net numbers in (TA) is increasing and as of July 2022 it has increased again but it is significantly lower than neighbouring boroughs.

Numbers in Temporary Accommodation as of March 2022 in neighbouring boroughs

Sutton - 844
Kingston - 837
Richmond - 314
Croydon - 1988
Bromley - 1653
Wandsworth - 2894

Statistical Data from Department of Levelling up, Housing and Communities (Extract-March'22)

This is due to a combination of factors: -

1. Increase in demand, primarily from the end of assured short tenancies (AST) and domestic abuse cases, but also family evictions, hospital discharges, prison releases and some cases from Ukraine
2. Fewer private sector rentals
3. Increase in numbers of customers going into TA but fewer are leaving those accommodation.

Feedback from other boroughs is that this situation is London wide and since January in some cases there has been a doubling of homelessness applications. There was an improvement in available properties from Capital Letters during June in, though supply dropped again in July. However, rent deposit staff were able to find alternative sources of PRS properties so there were 12 moves during the month. However, there are less cases leaving temporary accommodation due to signing up for social housing tenancies.

Lastly, the service is working with colleagues in the housing benefit team to chase cases that have not yet received assessments. Thus, reason for additional in employee forecast as another of staff is required to progress this work. Our modelling suggests there could be significant sums from previous years, but we are currently awaiting a response on 20 individual claims with the highest arrears. This is a priority action for the team.

Public Health –Breakeven position

The service is forecasting a breakeven position In July 2022.

Potential Cost pressures

The service continues to seek a resolution with NHS provider CLCH for both the children's contract (health visitors and school nurses) and for sexual health. Current conversations are regarding inflationary increases for 2022/23 as the service is seeking to extend contract to 2023/24.

Covid-19 Related Programmes

The team continues with the Covid-19 resilience programme and the refreshed Local Outbreak Management Plan (LOMP) which will be funded by the Contain Outbreak Management Fund (COMF) funding in 2022/23.

This is funded by the COMF grant which is expected to be utilised by March 2023.

Substance Misuse

The service also secured additional funding which is the Supplemental Substance Misuse Treatment and Recovery grant for 2022-2025 for the Department of Health and Social Care. This funding is to be used to maintain the boroughs investment in drug and alcohol treatment and recovery. Thus, to be used co-ordinate and commission a provider, encourage, increase, and enhance treatment capacity and quality.

CORPORATE ITEMS

The details comparing actual expenditure up to 31 July 2022 against budget are contained in Appendix 1. COVID-19 corporate expenditure is again shown on a separate line but it is intended that in future all covid related expenditure will be charged to the appropriate service:-

Corporate Items	Current Budget 2022/23 £000s	Full Year Forecast (July) £000s	Forecast Variance at year end (July) £000s	Forecast Variance at year end (June) £000s	Outturn Variance 2021/22 £000s
Impact of Capital on revenue budget	11,066	11,066	0	0	(235)
Investment Income	(396)	(938)	(542)	(542)	(143)
Pension Fund	503	503	0	0	0
Pay and Price Inflation	6,076	7,036	960	(30)	(1,945)
Contingencies and provisions	20,024	17,284	(2,740)	(2,800)	(17,212)
Income Items	(4,223)	(4,223)	0	0	10
Appropriations/Transfers	(10,131)	(10,237)	(106)	0	1,972
Central Items	11,852	9,424	(2,428)	(3,372)	(17,318)
Levies	988	988	0	0	0
Depreciation and Impairment	(25,593)	(25,593)	0	0	20
TOTAL CORPORATE PROVISIONS	(1,687)	(4,115)	(2,428)	(3,372)	(17,533)
COVID-19 Emergency expenditure	0	52	52	62	235
TOTAL CORPORATE EXPENDITURE inc. COVID-19	(1,687)	(4,064)	(2,376)	(3,310)	(17,298)

Based on expenditure to 31 July 2022, a favourable variance of £2.376m including Covid (£2.428m excluding covid) is forecast for corporate expenditure items. This is an adverse movement of £0.934m including Covid (£0.944m excluding Covid) on the June forecast and the reasons for this are:-

1. The forecast of the cost of the 2022/23 pay award has increased from 5% overall to 6% overall which equates to c. £0.990m additional expenditure.
2. Based on the latest estimates for the change in the DSG Deficit in 2022/23, there is a small increase of £60k in the use of the provision for this purpose.
3. Following the finalisation of the draft outturn review of reserves, there is a balance of £106k on the reserve set up to provide funding from Merton's resources towards the costs of Covid-19. This will not be needed and is therefore being appropriated into the General Fund to partially offset the overall forecast overspend.
4. Corporate Covid costs have reduced by £10k between June and July.

Commitments against Corporate Contingency

The following amounts will be vired to service accounts from the corporate contingency budget of £1.5m for the following purposes :

- a) £300k for funding architects to work on the Affordable Housing project
- b) £108k to fund Selective Licensing & Article 4 Direction costs

5 Capital Programme 2022-26

5.1 The Table below shows the movement in the 2022/26 corporate capital programme since the last monitoring report:

Depts	Current Budget 22/23	Variance	Revised Budget 22/23	Current Budget 2023-24	Variance	Revised Budget 23/24	Current Budget 2024-25	Variance	Revised Budget 24/25	Current Budget 2025-26	Variance	Revised Budget 25/26

5.2 The table below summarises the position in respect of the 2022/23 Capital Programme as at July 2022. The detail is shown in Appendix 5a.

Capital Budget Monitoring - July 2022

Department	Actuals	Year to Date Budget	Variance	Final Budget 2022-23	Forecast Outturn 2022-23	Forecast Variance 2022-23
Corporate Services	778,116	1,077,248	(299,132)	8,195,170	8,195,170	0
Community and Housing	246,294	174,560	71,734	994,530	994,530	0
Children Schools & Families	1,183,089	117,915	1,065,174	9,107,400	9,107,400	0
Environment and Regeneration	2,226,307	2,717,364	(491,057)	16,057,590	16,057,590	(0)
Total	4,433,806	4,087,087	346,719	34,354,690	34,354,690	(0)

a) Corporate Services – After the adjustments in the Table below budget managers are projecting full spend on all budgets.

	Budget 2022-23	Budget 2023-24	Narrative
-	£	£	
Corporate Services			
Customer Contact - Fix My Streets	(1)	50,000	Priority project from IT Implementation List
Business Systems - Parking System*	(1)	0	Funded by the OCPB Reserve
Total		0	90,110

(1) Requires Cabinet approval

* Original Budget of £175k for re-procurement of PCN and Parking Permits Systems, additional money is for the essential re-procurement of other related parking systems

b) Community and Housing – budget managers are projecting full spend on all budgets.

c) Children, Schools and Families – After the adjustments in the Table below budget managers are projecting full spend on all budgets.

	Budget 2022-23	Budget 2023-24	Budget 2024-25	Narrative	
	£	£	£		
Joseph Hood - Schools Capital Maintenance	(1)	(66,120)	66,120	Reprofiled in line with projected spend	
Dundonald - Schools Capital Maintenance	(1)	(12,000)		Reprofiled in line with projected spend	
Raynes Park - Schools Capital Maintenance	(1)	12,000		Reprofiled in line with projected spend	
Perseid Lower School - School Expansion	(1)	100,000	1,500,000	2,516,860	Splitting Perseid Lower Expansion from Perseid Upper
Perseid School - School Expansion	(1)	(100,000)	(1,500,000)	(2,516,860)	Splitting Perseid Lower Expansion from Perseid Upper
Mainstream SEN (ARP) - West Wimbledon ARP	(1)	40,000	(40,000)		Reprofiled in line with projected spend pattern
Total		(26,120)	26,120	0	

(1) Requires Cabinet approval

The Melrose School expansion is a major scheme which completed at the end of February 2022, some three months later than programmed. The contract is subject to a series of cost claims by the contractor which are being considered line by line by the council's appointed project manager, quantity surveyor and the design consultant. The previously increased budget for the scheme is fully committed, any further costs will require further budget approval.

The Authority is also awaiting the final account for one element of the Harris Academy Wimbledon.

- d. Environment and Regeneration – After the adjustments in the Table below budget managers are forecasting full spend on their budgets.

		Budget 2022-23	Budget 2023-24	Budget 2024-25	Narrative
		£	£	£	
Environment and Regeneration					
On Street Parking - P&D - Pay and Display Machines	(1)	(200,000)			As Emissions based Charging is not being progressed unspent budget being vired back to Car Park Upgrades
Off Street Parking - P&D - Car Park Upgrades	(1)	260,000			Virement of projected unspent budget back to Car Park Upgrades from Pay and Display Machine Upgrade
Off Street Parking - P&D - Peel House Car Park	(2)	700,000			Funding Required to undertake structural works
Off Street Parking - P&D - Pay and Display Machines	(1)			(60,000)	Reprofiled in line with projected spend pattern and vired to Car Park Upgrades
Highways and Footways - Bishopsford Bridge	(1)	35,000			Virement from Cycleway scheme to fund projected outturn on the scheme
Highways and Footways - Cycle Lane Roadway Bishopsford Bridge	(1)	(47,000)			Virement to main Bishopsford Bridge Scheme and relinquish projected underspend
Cycle Route Improvements - Morden Cycle Path		30,000			Additional TfL Funding
Mitcham Area Regeneration - Pollards Hill Bus Shelter	(1)	(100,000)	100,000		Reprofiled in line with projected spend
Morden Area Regeneration - Morden Town centre Improvement	(1)	(200,000)	200,000		Reprofiled in line with projected spend
Parks - New water play feature wimb pk	(1)	(226,000)	226,000		Reprofiled in line with projected spend
Parks - Multi Use Sports Areas	(1)	175,000		(175,000)	Reprofiled in line with projected spend
Parks - Figges Marsh Ward Allocation - Figges Marsh	(1)	10,020			Table Tennis Table funded by NCIL
Parks - Graveney Ward Allocation - Edenvale Rec	(1)	10,020			Table Tennis Table funded by NCIL
Parks - Lavender Fields Ward Alloc - Lavender Park	(1)	10,020			Table Tennis Table funded by NCIL
Parks - Longthornton Ward Alloc - Long Bolstead Rec	(1)	10,020			Table Tennis Table funded by NCIL
Parks - Colliers Wood Rec Playground	(1)	2,190			Additional NCIL Funding
Total		(469,270)	526,000	(235,000)	

(1) Requires Cabinet approval

(2) Requires November 2022 Council Approval

Wimbledon Park Splash Pool works are complete to upgrade the existing facility, the new splash pool is waiting the AELTC development of Wimbledon Park Golf Course so the SCIL budget is being slipped into 2023-24.

Officers are currently reviewing the options in respect of Peel House Car Park and it is envisaged that the outcome of this review will be added to a subsequent monitoring report. Final accounts are still outstanding with some contractors on both Canons Parks for the People and Bishopsford (Mitcham) Bridge.

It is likely that projects to cover the purchase and installation of three table tennis tables will be added to this monitoring report – these items are funded by NCIL Ward Allocations.

5.3 Appendix 5c shows the revised funding of the proposed budget for 2022/25

5.4 The table below summarises the movement in the Capital Programme for 2022/23 since its approval in March 2022 (£000s):

Depts.	Original Budget 22/23	Net Slippage 2021/22	Adjustments	New External Funding	New Internal Funding	Re-profiling	Revised Budget 22/23
Corporate Services	8,522	5,454			211	(5,992)	8,195
Community & Housing	2,530	87			50	(1,673)	995
Children Schools & Families	6,441	888	422	2,287		(931)	9,107
Environment and Regeneration	15,118	3,489	(12)	828	1,016	(4,380)	16,058
Total	32,611	9,919	410	3,115	1,276	(12,976)	34,355

5.5 The table below compares capital expenditure (£000s) to July 2022 to that in previous years':

Depts.	Spend To July 2019	Spend To July 2020	Spend to July 2021	Spend to July 2022	Variance 2019 to 2022	Variance 2020 to 2022	Variance 2021 to 2022
CS	400	407	463	778	378	371	315
C&H	262	81	259	246	(16)	165	(13)
CSF	3,016	148	1,193	1,183	(1,833)	1,035	(10)
E&R	903	1,561	3,563	2,226	1,323	665	(1,337)
Total Capital	4,582	2,198	5,478	4,434	(148)	2,236	(1,044)

Outturn £000s	23,161	16,930	21,776	
Budget £000s				34,355
Projected Spend July 2022 £000s				34,355
Percentage Spend to Budget				12.91%
% Spend to Outturn/Projection	19.78%	12.98%	25.16%	12.91%
Monthly Spend to Achieve Projected Outturn £000s				3,528

5.6 July is one third of the way through the financial year and departments have spent just over 13.0% of the budget. Spend to date is higher than two of the last three previous financial years

Department	Spend To June 2022 £	Spend To July 2022 £	Increase £
CS	738,396	778,116	39,720
C&H	142,633	246,294	103,661
CSF	244,418	1,183,089	938,671
E&R	855,386	2,226,307	1,370,921
Total Capital	1,980,834	4,433,806	2,452,972

5.7 During July 2022 officers spent just under £2.5 million, to achieve year end spend officers would need to spend approximately £3.4 million each month to year end. Finance officers will continue to review in detail the projected outturn with budget managers.

6.0 DELIVERY OF 2022/23 SAVINGS

Department	Target Savings 2022/23	Projected Savings 2022/23	2023/24 Expected Shortfall
	£000	£000	£000
Corporate Services	550	395	155
Children Schools and Families	1,888	1,338	550
Community and Housing	1,659	305	1,354
Environment and Regeneration	1,898	833	1,065
Total	5,995	2,871	3,124

Appendix 6 provides a breakdown on Directorate savings.

1) CONSULTATION UNDERTAKEN OR PROPOSED

- All relevant bodies have been consulted.

2) TIMETABLE

- Following current financial reporting timetables.

3) FINANCIAL, RESOURCE AND PROPERTY IMPLICATIONS

- All relevant implications have been addressed in the report.

4) LEGAL AND STATUTORY IMPLICATIONS

- All relevant implications have been addressed in the report.

5) HUMAN RIGHTS, EQUALITIES AND COMMUNITY COHESION IMPLICATIONS

- Not applicable

6) CRIME AND DISORDER IMPLICATIONS

- Not applicable

7) RISK MANAGEMENT AND HEALTH AND SAFETY IMPLICATIONS

- The risk of part non-delivery of savings is already contained on the key strategic risk register and will be kept under review.

Pay and Price Inflation as at July 2022 Monitoring

In 2022/23, the budget includes 2% for increases in pay and 2.5% for increases in general prices, with an additional amount of £2.5m which will be held to assist services that may experience price increases greatly in excess of the inflation allowance provided when setting the budget. With CPI inflation currently at 9.1% and RPI at 11.7% and the Council's overall revenue budget under extreme pressure, this budget will be retained as cover and only released in exceptional circumstances.

Pay:

For 2022/23 the final pay award has not been agreed but provision of 2% was included in the MTFS.

As reported to Cabinet in the period 2 (May) monitoring report, on 6 June 2022, the three local government unions, UNISON, GMB and Unite, representing 1.4 million council and school employees, submitted a pay claim for staff in England, Wales and Northern Ireland.

The 2022 claim, which would apply from the start of April 2022, would see council employees receive either a £2,000 rise at all pay grades or the current rate of RPI (presently 11.7%), whichever is higher for each individual.

On 25 July 2022, the National Employers agreed to make the following one-year (1 April 2022 to 31 March 2023), final offer to the unions representing the main local government NJC workforce:

- With effect from 1 April 2022, an increase of £1,925 on all NJC pay points 1 and above
- With effect from 1 April 2022, an increase of 4.04 per cent on all allowances
- With effect from 1 April 2023, an increase of one day to all employees' annual leave entitlement
- With effect from 1 April 2023, the deletion of pay point 1 from the NJC pay spine

This offer would achieve a bottom rate of pay of £10.50 with effect from 1 April 2022 (which equates to a pay increase of 10.50 per cent for employees on pay point 1); everyone on the NJC pay spine would receive a minimum 4.04 per cent pay increase; and the deletion of pay point 1 on 1 April 2023, would increase the bottom rate to £10.60 (providing 10p headroom above the current upper-end forecast for the NLW on that date), pending agreement being reached on a 2023 pay award.

Potential rates of pay for London from 1 April 2022 based on the national employers' pay offer to the unions representing Local Government Services employees.

- With effect from 1 April 2022 the national offer is for a pay increase of £1,925 on all NJC pay points.
- In London this translates to an equivalent offer of £2,229 on all Outer London pay points and an increase of £2,355 on all Inner London pay points.
- Allowances to be increased by 4.04%

As previously reported, given the current pressure that pay negotiations are under, and the continuing upward forecast for inflation in the coming months, it is clear that the current 2% provision will not be sufficient.

The previous forecast outturn in June (Period 3) assumed a pay award of 5% and an unfavourable variance of c. £2.970m but this is increased to 6% in the July forecast leading to an unfavourable variance of £3.960m.

If this level of pay award is agreed, it is currently proposed to mitigate this by a one-off contribution from reserves of £2m in 2022/23.

Prices:

The Consumer Prices Index (CPI) rose by 10.1% in the 12 months to July 2022, up from 9.4% in June. On a monthly basis, CPI also rose by 0.6% in July 2022, compared with no change in July 2021. Rising food prices made the largest upward contribution to the change in both the CPIH and CPI annual inflation rates between June and July 2022.

The Consumer Prices Index including owner occupiers' housing costs (CPIH) rose by 8.8% in the 12 months to July 2022, up from 8.2% in June. On a monthly basis, CPIH rose by 0.6% in July 2022, compared with no change in July 2021. The largest upward contributions to the annual CPIH inflation rate in July 2022 came from housing and household services (principally from electricity, gas and other fuels, and owner occupiers' housing costs), transport (principally motor fuels), and food and non-alcoholic beverages.

The RPI rate for July 2022 was 12.3%, which is up from 11.8% in June.

Outlook for inflation:

The Bank of England's Monetary Policy Committee (MPC) sets monetary policy to meet the 2% inflation target and in a way that helps to sustain growth and employment.

At its meeting ending on 3 August 2022, the MPC voted by a majority of 8-1 to increase Bank Rate by 0.5 percentage points, to 1.75%. One member preferred to increase Bank Rate by 0.25 percentage points, to 1.5%.

The next Bank of England MPC base rate decision is on 15 September 2022.

In the minutes to the August meeting, the MPC gave a bleak economic outlook stating that "Inflationary pressures in the United Kingdom and the rest of Europe have intensified significantly since the May Monetary Policy Report and the MPC's previous meeting. That largely reflects a near doubling in wholesale gas prices since May, owing to Russia's restriction of gas supplies to Europe and the risk of further curbs. As this feeds through to retail energy prices, it will exacerbate the fall in real incomes for UK households and further increase UK CPI inflation in the near term. CPI inflation is expected to rise more than forecast in the May Report, from 9.4% in June to just over 13% in 2022 Q4, and to remain at very elevated levels throughout much of 2023, before falling to the 2% target two years ahead. GDP growth in the United Kingdom is slowing. The latest rise in gas prices has led to another significant deterioration in the outlook for activity in the United Kingdom and the rest of Europe. The United Kingdom is now projected to enter recession from the fourth quarter of this year. Real household post-tax income is projected to fall sharply in 2022 and 2023, while consumption growth turns negative."

The MPC is clear that the latest increase in the base rate may not be the last in the coming

months and that it “will take the actions necessary to return inflation to the 2% target sustainably in the medium term, in line with its remit. Policy is not on a pre-set path. The Committee will, as always, consider and decide the appropriate level of Bank Rate at each meeting. The scale, pace and timing of any further changes in Bank Rate will reflect the Committee’s assessment of the economic outlook and inflationary pressures. The Committee will be particularly alert to indications of more persistent inflationary pressures, and will if necessary act forcefully in response.”

On 4 August 2022, the Bank of England also published its quarterly Monetary Policy Report for August 2022. In this report the MPC include forecast quarterly CPI inflation rates over the next three years as follows:-

2022	2022	2023	2023	2023	2023	2024	2024	2024	2024	2025	2025	2025
Qtr.3	Qtr.4	Qtr.1	Qtr.2	Qtr.3	Qtr.4	Qtr.1	Qtr.2	Qtr.3	Qtr.4	Qtr.1	Qtr.2	Qtr.3
CPI	CPI	CPI	CPI	CPI	CPI	CPI	CPI	CPI	CPI	CPI	CPI	CPI
%	%	%	%	%	%	%	%	%	%	%	%	%
9.9	13.1	12.6	10.8	9.5	5.5	4.3	2.6	2.0	1.4	1.2	0.9	0.8

The MPC’s analysis of this forecast are that “the direct contribution of energy prices to CPI inflation alone is expected to peak at 6½ percentage points in 2022 Q4. That is substantially higher than in the Committee’s forecasts over the past year, given the successive very sharp increases in global energy prices over this period. Together with higher indirect effects from energy prices, which can affect both goods and services prices, this accounts for most of the much higher outlook for CPI inflation over the first half of the forecast since May. Though responsible for much less of the rise in headline inflation, domestic inflationary pressures have also increased and are projected to be a little stronger than previously expected. In particular, it appears that the labour market is currently tighter than the Committee previously assumed. Together with a little more upward pressure on pay from higher price inflation, nominal private sector regular pay growth rises by more than in May over the first half of the forecast. This is broadly consistent with the Agents’ survey on employment and pay, which suggests that firms expect pay settlements to average 6% over the next year, higher than the equivalent survey set out in the February Report. As a result, CPI inflation is a little higher throughout the projection from this judgement.”

The latest inflation and unemployment forecasts for the UK economy, based on a summary of independent forecasts are set out in the following table:-

Table: Forecasts for the UK Economy

Source: HM Treasury - Forecasts for the UK Economy (August 2022)			
	Lowest %	Highest %	Average %
2022 (Quarter 4)			
CPI	7.8	12.6	10.1
RPI	8.7	17.7	12.8
LFS Unemployment Rate	3.6	4.5	4.0
2023 (Quarter 4)			
CPI	0.9	7.7	3.4
RPI	1.6	9.0	4.6
LFS Unemployment Rate	3.2	5.0	4.2

Note the wide range between highest and lowest forecasts which reflects the volatility and

uncertainty arising from volatile fuel and utility costs impacting on the cost of living and the difficulty of forecasting how the situation will evolve. Clearly where the level of inflation during the year exceeds the amount provided for in the budget, this will put pressure on services to stay within budget and will require effective monitoring and control.

Independent medium-term projections for the calendar years 2022 to 2026 are summarised in the following table:-

Source: HM Treasury - Forecasts for the UK Economy (August 2022)					
	2022	2023	2024	2025	2026
	%	%	%	%	%
CPI	8.3	4.7	1.3	1.6	1.8
RPI	9.1	6.5	2.4	3.1	3.4
LFS Unemployment Rate	3.9	4.2	4.2	3.8	3.7

The Bank's Monetary Policy Committee (MPC) sets monetary policy to keep inflation low and stable, which supports growth and jobs. Subject to maintaining price stability, the MPC is also required to support the Government's economic policy. The Government has set the MPC a target for the 12-month increase in the Consumer Prices Index of 2%.

The MPC currently uses two main monetary policy tools.

1. setting the interest rate that banks and building societies earn on deposits, or 'reserves', placed with the Bank of England — this is Bank Rate.
2. buying government and corporate bonds, financed by the issuance of central bank reserves — this is asset purchases or quantitative easing.

At its meeting ending on 3 August 2022, the MPC voted by a majority of 8-1 to increase Bank Rate by 0.5 percentage points, to 1.75%. One member preferred to increase Bank Rate by 0.25 percentage points, to 1.5%.

The next Bank of England MPC base rate decision is on 15 September 2022.

The MPC outlined the background behind the August decision as “the MPC's remit is clear that the inflation target applies at all times, reflecting the primacy of price stability in the UK monetary policy framework. The framework recognises that there will be occasions when inflation will depart from the target as a result of shocks and disturbances. The economy has continued to be subject to a succession of very large shocks, which will inevitably lead to volatility in output. Monetary policy will ensure that, as the adjustment to these shocks occurs, CPI inflation will return to the 2% target sustainably in the medium term. The labour market remains tight, and domestic cost and price pressures are elevated. There is a risk that a longer period of externally generated price inflation will lead to more enduring domestic price and wage pressures. In view of these considerations, the Committee voted to increase Bank Rate by 0.5 percentage points, to 1.75%, at this meeting.”

In its August Monetary Policy Report the MPC set out an economic outlook, with updated central projections for activity and inflation in the UK. The MPC note that “near-term inflationary pressures in the UK and the rest of Europe have intensified significantly since the May Report. That reflects a near doubling in wholesale gas prices, due to Russia's restrictions on its supply of gas to Europe and the risk of further curbs. This latest rise in gas prices, and to a lesser extent, a tightening in financial conditions, have led to another significant deterioration in the outlook for world activity, with economies in Europe, including the UK, particularly severely affected. The UK is projected to enter recession from 2022 Q4. These developments have further greatly accentuated the extent to which, in the MPC's baseline projection, UK CPI inflation is well above the 2% target over the first 18 months and well below the target in three years' time. In line with the MPC's conventions, the baseline forecasts are conditioned on: the path of Bank Rate implied by financial markets, which rises to 3.0% in 2023 Q2, before falling to 2.2% at year three; and wholesale energy prices following their futures curves for the next six months and then remaining constant. Such a path for energy prices would be extremely high by historical standards throughout the three-year forecast period.”

In the May 2022 Monetary Policy report the MPC has used the following projections implied by current data trends:-

	Projections (August 2022)			
	2022 Q.3	2023 Q.3	2024 Q.3	2025 Q.3
GDP	2.3	(2.1)	0.0	0.4
CPI Inflation	9.9	9.5	2.0	0.8
LFS Unemployment Rate	3.7	4.4	5.5	6.3
Excess Supply/Excess Demand	0.75	-2.25	-3.25	-3.75
Bank Rate	1.6	3.0	2.5	2.2

The conclusions that the MPC reach in the August 2022 Monetary Policy Report are supported by the following Key Judgements:-

Key judgement 1: in the baseline forecast, persistently high gas and other commodity prices continue to put upward pressure on global consumer price inflation and depress global growth in the near term before their effects gradually dissipate.

Key judgement 2: given the sharp decline in household real incomes, consumer spending falls over the next year and the UK economy enters recession. Consumption falls by less than income, however, as households, in aggregate, reduce their saving. GDP growth is weak thereafter, even though the pressures on real incomes ease somewhat.

Key judgement 3: given elevated recruitment difficulties and strong labour demand, firms respond initially to the weakness in spending by using their existing inputs less intensively. So although economic slack emerges in 2022 Q4, the labour market remains tight over the next year and unemployment only starts to rise above its current level in mid-2023. It reaches 6¼% at the end of the forecast period, with slack building to 3¾% of potential GDP.

Key judgement 4: : domestic price pressures remain strong over the first half of the forecast, as nominal wage growth strengthens and many companies are able to protect their margins. But the building degree of economic slack moderates these forces and inflation expectations adjust downwards quickly as external pressures abate and inflation itself begins to fall. Domestic pressures therefore fade and, conditioned on the market yield curve, inflation is around the 2% target in two years' time and well below it in three years.

Appendix 6 Progress on Savings expected in 2022/23

PROGRESS ON 2022/23 SAVINGS

DEPARTMENT: CORPORATE SERVICES SAVINGS PROGRESS 2022/23

Ref	Description of Saving	2022/23 Savings Required £000	2022/23 Savings Forecast £000	Shortfall	RAG	Responsible Officer	Comments	R /A Included in Forecast Over/Under spend? Y/N
Savings due in 22/23								
2019-20 CS04	Reduce strategic partner grant by 10%	78	78	0	G	John Dimmer		
2019-20 CS28	Cash collection reduction	13	13	0	G	Sean Cunniffe		
2020-21 CS7	Staff reductions	75	75	0	G	Sean Cunniffe		
2022-23 CS5	Customer, Policy & Improvement – Registrars Service	32	32	0	G	Sean Cunniffe		
2022-23 CS6	Customer, Policy & Improvement – Cash Collection	20	20	0	G	Sean Cunniffe		
2022-23 CS8	Customer, Policy & Improvement – Customer Contact	15	15	0	G	Sean Cunniffe		
2020-21 CS11	Commercial Services - restructure	50	0	50	R	Tina Dullaway	Will not be achieved - awaiting approval from CMT to implement the findings of the Commercial Services review. Due to go to CMT 07.07.22. 08.08.22 - Caroline has agreed to delete the £50k saving in Commercial Services in lieu of the service review recommendations being agreed.	
2018-19 CS08	Increase in income from Enforcement Service	20	0	20	R	David Keppler	Not achievable in year due to covid	
2022-23 CS1	Resources - AD budget	10	10	0	G	Roger Kershaw		
2022-23 CS2	Resources - AD budget	15	15	0	G	Roger Kershaw		
2022-23 CS3	Resources - Insurance	25	25	0	G	Nemashe Sivayogan		
2022-23 CS4	HR - Payroll	15	15	0	G	Liz Hammond		
2022-23 CS9	Corporate Governance - AD Budget	3	3	0	G	Louise Round		
2022-23 CS10	Corporate Governance - Electoral Services and Democratic services	15	15	0	G	Andrew Robertson	Currently forecasting around 25K savings across both codes but this is not including election overspend for 2022, which is forecasted at 22K. It's also unclear at the moment whether all of the cost of the Interim appointment in the Leaders Office will be charged to the Democracy Services budget. If Democracy Services bears all the cost then the forecasted savings will not be achieved.	
2022-23 CS12	Corporate Governance - Information Team	29	29	0	G	Paul Phelan		
2022-23 CS13	Corporate items	50	50	0	G	Martin Hone		
Prior Year savings not delivered in 2021/22								
2018-19 CS08	Increase in income from Enforcement Service	15	0	15	R	David Keppler	Not achievable in year due to covid	Y
2021-22 CS11	Review of shared Bailiff service with Sutton	40	0	40	R	David Keppler	Not achievable in year due to covid	Y
2019-20 CS23	Implement a means assessed charging scheme for appointeeships undertaken by the CFA team.	30	0	30	R	Tina Dullaway	Charging scheme yet to be agreed and implemented	Y
Total CS Savings for 2022/23		550	395	155

PROGRESS ON 2022/23 SAVINGS

DEPARTMENT: ENVIRONMENT & REGENERATION SAVINGS PROGRESS: 2022-23

Ref	Description of Saving	2022/23 Savings Required £000	2022/23 Savings Achieved £000	Shortfall	RAG	Responsible Officer	Comments	R / A Included in Forecast Over/Under spend? Y/N	Budget manager
Savings due in 22/23									
ENV2021-07	Property Management - Increase residential (former Service tenancies) rent (increased income)	100	100	0	G	James McGinlay	Saving will not be made from additional rent from residential properties but from Industrial rent increase.		Jacquie Denton
ENV2021-10	Development Control/Building Control - Savings as a result of the 'Assure' M3 upgrade	15	0	15	R	James McGinlay			Jonathan Berry
ENV2022-23 05	Highways; Increased income from street permitting through enforcement of utility works.	40	40	0	G	James McGinlay			Paul McGarry
ENV2022-23 07	Future Merton, Policy team: Additional income from planning performance agreements (PPA)	50	50	0	G	James McGinlay			Paul McGarry
ENV1819-04	Parking: Reduction in the number of pay & display machines required.	14	14	0	G	Calvin McLean			Gavin Moore
ENV2021-08	Parking - Activity to improve On Street parking compliance.	100	100	0	G	Calvin McLean			Gavin Moore
E1	Regulatory Services: Investigate potential commercial opportunities	65	65	0	R	Calvin McLean			Chris Nash
ENV2022-23 01	Public Space - Waste services: Disposal processing savings (Food Waste Recyclate)	104	104	0	G	John Bosley			Charles Baker
ENV2022-23 02	Public Space – Greenspaces: Raynes Park Sports Ground - new lease arrangement	35	35	0	G	John Bosley			Andrew Kauffman
Prior Year savings not delivered in 2021/22									
ENV1920-06	Future Merton: Highways advertising income through re-procurement of the advertising contract for the public highway.	70	0	70	R	James McGinlay	Covid-19 estimated to impact on saving. Should be achieved from 2022/23.	Y	Paul McGarry
ENV2021-02	D&BC: Increase PPA's income (increased income) through a dedicated Majors team	80	0	80	R	James McGinlay	Staff issue with the admin manager being off sick has delayed progress.	Y	Jonathan Berry
ENV1920-01	Parking: Application to change Merton's PCN charge band from band B to band A. To effect this a full business case will need to be presented to Full Council. Following this, an application will be made to the London Councils Transport, and Environment Committee. Depending on the outcome at the Committee, the Mayor will also be required to ratify the application and the Secretary of State has final sign off. This 'saving' reflects the impact on estimated revenue until motorist compliance takes full effect. The objective is to reduce non-compliance but if the band change is implemented it is likely that there will be a short term increase in revenue. The purpose of PCN parking charges is to dissuade motorists from breaking parking restrictions and charges must be proportionate. The income from charges must only be used in accordance with the Road Traffic Regulation Act 1984. These purposes are contained within the Council's traffic management and other policy objectives.	340	340	0	R	Calvin McLean	Following the consultation process and approval by Merton, approved is required by the following: London Councils, GLA, Mayor for London and Secretary of State. Applications are now with Secretary of state for final sign off. Possible implementation date Q4 2022. Process was delayed due to London Mayoral Election, officers working with GLA to progress the application. Additional questions raised by GLA have now been responded to and approved. Estimated operational date Feb 2022 resulting in 2 months (£56k) pro rata of this saving being achieved, to be sent by GLA to Mayor for London. Band A charges were introduced on the 1st February 2022. The impact of the increased charge will be monitored.	Y	Gavin Moore
ENV2021-08	Parking: Activity to improve On Street parking compliance.	100	50	50	R	Calvin McLean	Due to COVID and current on street activity this saving has not been met in Q1-3 2021. Operational consideration now being worked through for implementation in Q4. Possible Risk £50k will be achieved next year rather than this financial year. Additional on street activity commenced in January and a minimum £50k saving will be achieved in 2021/22.	Y	Gavin Moore
ENV2021-06	Service restructure across Safer Merton and CCTV	35	0	35	R	Calvin McLean	Cost pressures within the CCTV budget present a challenge to meeting this savings target. The CCTV upgrade programme will reduce the CCTV revenue costs (e.g. the upgrades to the network will lower data transmission costs), therefore the delivery of these savings is contingent on the timely implantation of the upgrade programme.	Y	Alun Goode
Total Environment and Regeneration Savings 2021/22		1,898	833	1,065
